

Three Quarters Of Billion In Postal Treasury Measures

Largest Peace Time Supply Bill Ever Presented Is Reported to House

\$11,000,000 FOR DRY LAW

Committee Recommends \$50,000 for Law Enforcement Propaganda

Washington, D. C.—The largest peace time supply bill ever presented to congress—a measure carrying more than three quarters of a billion dollars for treasury and post office department activities during the coming fiscal year—was reported Friday by the house appropriations committee. The total is \$763,180,522 or \$11,890,614 more than for the current year, but approximately \$12,000,000 less than budget estimates.

Of the combined total \$126,911,107 would go to the treasury and \$636,269,415 to the postoffice department. Included in the treasury item is \$11,000,000 for enforcement of prohibition—\$783,120 more than recommended by the budget but \$241,170, less than the total available this year. In addition the bill carries \$20,679,835 for the coast guard which now is being used to prevent liquor smuggling.

Among the post office department items is \$2,600,000 for the transcontinental air mail service—\$150,000 less than the amount granted for this year.

Chairman Madden estimated permanent and indefinite appropriations for the treasury department which require no legislative action would aggregate \$1,340,553,955. He expects reduction from \$865,000,000 to \$830,000,000 next year in interest on the public debt.

An automatic increase in the sinking fund was estimated at \$310,000,000 this year and \$223,175,000 next year.

\$11,000,000 FOR DRYS

The bill carries \$16,646,200 for the customs service—\$322,940 less than was appropriated last year; \$417,600 for other services including the \$11,000,000 for prohibition enforcement; \$9,103,101 for the public health service, and \$1,832,040 for mint and assay offices.

No provision is made for maintenance after July 1 of the assay office at Deadwood, S. D., and Salt Lake City. Elimination of these offices was recommended by the administration. From the evidence obtained by the committee, said the report "there is no decrease in work to be performed in the enforcement of the prohibition and Narcotic act as to justify at the present time a decrease in the organization. The committee recommended that not to exceed \$50,000 be expended for the dissemination of information and appeal for law observance and law enforcement through the use of posters and other modes of public appeal. The appropriation for air mail service is \$150,000 less than the amount available for this year but does not contemplate reduction of service.

The bill carries \$559,373 for mail transmission by pneumatic tubes the amount available this year, and \$80,250,000 for rural delivery service, the latter a decrease of \$600,000.

BROTHERLY LOVE IS PEACE BASIS, CLAIM

Rockchester, Minn.—Permanent peace will come only when nations of the earth have a will for peace and follow the precepts of brotherly love, J. L. Rennot, United States Senator from Wisconsin and member of the senate foreign relations committee, declared in an address here Thursday to the local Kiwanis club.

Senator Rennot favored the world court as espoused by President Harding and Coolidge, but declared that he did not favor "any tribunal that will compel the United States to enforce decrees in which it had no direct interest."

Rich Richard Says:

GOOD counsel has no price. And the good advice you find among the Classified Ads saves you much and costs you nothing.

TWENTY FIVE CLAIMS FILED AGAINST MEXICO

Mexico City.—The foreign office is advised that 25 memoranda have already been filed in Washington regarding claims against Mexico to be studied by the general claims commission set up by the two countries. Work on the memoranda will begin after some time, the commission waiting for more to be filed.

EBERT AND MARX QUIT EFFORTS FOR CABINET

By Associated Press
Berlin.—Finding themselves unable to form a government commanding a Reichstag majority, President Ebert and Chancellor Marx Friday agreed to discontinue their efforts until shortly before the Reichstag meeting on Jan. 5. The Marx-Stresemann cabinet meanwhile continuing to function.

California Wants Man Like Hoover At Head Of Farm Relief Work

MENNONITES RETURN NORTH FROM MEXICO

By Associated Press
North Portal, Calif.—Approximately 1,600 Mennonites who left the Wynard and Herbert districts of this province several months ago to form a colony in Mexico have passed through this place on their way back to their farms.

Mexico offered no such opportunities as they had been led to expect, the returning Mennonites said.

WOMAN DENIES HER FIRST CONFESSION

Elsie Sweetin Pleads Illness as Excuse for Story Told Authorities

By Associated Press
Mount Vernon, Ill.—With counsel for Lawrence M. Hight, who is on trial with Mrs. Elsie Sweetin for the murder by poison of Mrs. Anna Hight and Milford Sweetin, ready to present physicians to testify in defense of their client, new interest in the case was aroused. Mrs. Sweetin, the principal witness Thursday, denied Hight had suggested that she poison her husband and declared the confession in which she had admitted the crime was untrue.

"I did not give Wilford poison. Hight did not give me any poison. Time and time and again she insisted she was innocent."

Referring to her alleged confession she said: "I was weak, sick and nervous. There I was in jail, a sick woman." Before she met Hight, her story went, she had lived a life untroubled by scandal or turbulence. Wilford, she said, introduced her to the preacher at a revival meeting last December.

WRECKED BRIDGE IS READY FOR USE

Superior — Street car traffic was to be resumed across the interstate bridge between Superior and Duluth Friday afternoon, according to an announcement made Thursday night by H. J. Seyton, district engineer for the Great Northern railway, and Alfred Williams, superintendent of the Superior division of the Twin Ports Electric line. Ferry service maintained between Connors Point and Rice Point since the Wisconsin span was wrecked by steamer Merton Farr on Nov. 21, ceased shortly before noon Thursday.

The trouble on which the Soo line train line was to be completed before Jan. 1. It is probable that the bridge will be ready for vehicle traffic in another week.

NEGRO SLAYER PAYS PENALTY IN IDAHO

By Associated Press
Boise, Idaho.—Idaho's first execution since 1909 took place at 12:20 o'clock Friday when Noah Arnold, Negro, was hanged for the murder of William A. Crisp in July 1923, when Arnold, in company with Mike Donnelly, now serving a life sentence for his participation in the crime, held up the store of Crisp.

Crisp was shot when he resisted Arnold's attempt to take a watch from the apron grocery pocket. Arnold was charged with first degree murder and later attempted to change his plea after the case had been through all Idaho courts. He was sentenced in September 1923 to be hanged.

"Kid" On Way To Trial

This is "Kid" McCoy's latest picture. He is seen here, in company with a detective, preparing to leave for the courtroom where he is now on trial for the murder of Mrs. Theresa Mors.

GREEN ELECTED TO SUCCEED GOMPERS AS LABOR LEADER

Ohio Man, Chief of United Mine Workers of America, Wins Choice

By Associated Press
New York.—William Green, Ohio, Friday, was elected president of the American Federation of Labor to succeed the late Samuel Gompers, when the executive council met.

Mr. Green, who has been secretary-treasurer of the United Mine Workers of America since 1912, is free to accept this office. It is also learned, this is taken to indicate that John L. Lewis will continue in his present position as president of the mine workers and is no longer a cabinet possibility.

Mr. Green is 51 years old, a native Ohioan, a product of the Ohio coal fields, and is a former president of the Ohio state senate. His home is in Colchester, O. He is a Mason, Elk and Odd Fellow, a member of the American Academy of Political Science and of the Baptist church.

The election of Mr. Green was unanimous. The keynote of his administration, he said, would be "constructive progressivism."

In a formal statement Mr. Green said that he would carry out the policies of Samuel Gompers.

GOULD FATHER OF CHILDREN, WIDOW TELLS REFEREES

Question of Legitimacy Comes Up When Mother Claims Share of Estate

By Associated Press
New York.—Mrs. Guinevere Sinclair Gould, widow of the late George J. Gould, appeared Friday at the referee's hearing in the Gould accounting suit to defend her three children against the charge, made Thursday, that her husband was not their father.

The question of the legitimacy of the three children who were born before Mrs. Gould's marriage to Gould, was first brought into the accounting suit Thursday when J. Arthur Leve, counsel for George J. Gould, Jr., denied that the late George Gould was their father. Mr. Gould in his will acknowledged the children—a boy and two girls—as his own and left them part of his estate.

Mrs. Gould said Friday that two of her children—George and Guinevere—were born in a hospital in New York City in April, 1915 and June, 1916, respectively. The third, Jane, was born at Lakehurst, N. J., in April, 1922, she said.

"Was George Gould their father?" she was asked.

"Yes," answered Mrs. Gould.

She said she married Mr. Gould in May, 1922, a year after the death of his first wife.

SUSPECT FEDERAL DRYS AS SLAYERS

Sheriff Sends Deputies to Bring Prohibition Sleuths for Identification

By Associated Press
Chicago.—Belief that the four men who killed Omar Finch, former Joy, Ill., grain dealer, a week ago, in his saloon at Chicago Ridge were federal prohibition agents and not, as federal authorities maintain, hijackers posing as officers, was expressed by Sheriff Peter M. Hoffman Friday as plans were made to bring the entire force of agents before Cole Finch, witness of the shooting of his father. Cole Finch's story that the shooting resulted from his father's refusal to pay a bribe when the men caught him with several drums of alcohol was corroborated by Lawrence Pedigo of Rock Island, Ill., also a witness of the slaying.

Sheriff Hoffman said he would send deputies to Rock Island to bring back Pedigo to aid Cole Finch in identifying the slayers. It was expected no attempt would be made to view the prohibition agents until after Pedigo arrived here.

TWIN CITIES SEEK TO CURB SMALLPOX

By Associated Press
St. Paul, Minn.—A joint committee, consisting of officials of the cities of St. Paul and Minneapolis, together with state health officials will meet Friday to discuss methods of combating the smallpox situation in the Twin Cities.

At a meeting Thursday it was decided to hold Friday's session to take measures to put an end to the disease throughout the state. Unlimited funds were pledged by both Minneapolis and St. Paul officers at the meeting. Governor J. A. O. Pless made a plea to those present to forget their differences and work together.

BANK BANDITS FIRE TOWN AFTER ROBBERY

By Associated Press
Fort Worth, Tex.—Bank robbers set fire to the Town of Valley View early Friday after wrecking a state and national bank and carrying away two safes.

Alleged Slayer Of 26 Will Pay With Death

By Associated Press
Hanover, Germany.—Fritz Haarmann, the "wholesale murderer," whose trial for the slaying of 26 persons has stirred all Germany, was sentenced to death Friday.

The extreme penalty was also ordered in the case of his accomplice, Hans Grans.

Haarmann was found guilty of murdering 24 young men, the crimes extending over a period of six years. This defendant was condemned for inciting to murder in one case.

Fritz Haarmann, Hanover butcher, was shown in his trial to be a criminal degenerate who lured men and boys to his lodgings and there killed them by tearing their throats with his teeth and sucking their blood.

The crimes were committed in his room in the top story of a decrepit tenement house, facing Leine, and the bodies were disposed of by throwing them into the stream. Many human bones were found when

the bed of the river was dragged after his arrest early last summer. Haarmann confessed to slaying 18 youths between the ages of 15 and 22, but declared he could not remember the exact number or the names of his victims. The crimes were spread over a period of several years.

For a time after his arrest Haarmann seemed to revel in the notoriety which the case brought him and once boasted that he would go down in history as the greatest murderer of all time, but as the tale of his deeds was unfolded he began to fear vengeance at the hands of his victims' relatives and pleaded for a quick ending of the case.

An attempt to mitigate the punishment by establishing insanity fell through, alienists declaring him sane in the eyes of the law and thus accountable for his acts.

His accomplice, Grans, who is also sentenced to death, was charged with encouraging Haarmann in his crimes and of buying the clothing of his victims.

Appleton Escapes As Cold Brings Deaths And Tieups To West

DRUGGIST SHOT WHEN HE OPPOSES BANDIT

Detroit, Mich.—Anthony F. Cimilini, 23, was shot and probably fatally wounded Thursday night by a gunman who intended to rob the store. When the robber ordered Cimilini to hold up his hands the druggist reached for a revolver, witnesses told police. The robber fired twice, both bullets penetrating the victim's forehead. Two customers were in the store when the shooting took place. When Cimilini fell, the gunman rushed from the store without taking anything.

EDUCATORS DISCUSS FEDERAL AID PLANS

By Associated Press
New York.—Creation of a federal department of education with federal aid to states for education as provided by the sterling bill in congress will be debated at the eleventh annual meeting of the Association of American Colleges and allied agencies at Chicago Jan. 5, to 10, it was announced Friday.

More than 200 college presidents and church educators are expected to attend.

Three Deaths Reported in Milwaukee, Three in Illinois, Five in West

COMMUNICATION TIED UP

Miles City Reports Drop of 40 Degrees Below Zero as Lowest Mark

Old Man Winter twisted the "Do Your Christmas shopping early" slogan to suit his own ends and did his arriving in Appleton early. He swooped down on this locality at least two days ahead of schedule, for the first day of winter officially is Sunday, Dec. 21.

Not only did the unseasonable old fellow give the community its biggest snowstorm of the season but sent the temperature down to zero, making a descent of seven degrees within 13 hours. Appleton thus got down to a rigid winter basis much earlier than last year, when the ground was free from snow until almost New Year's and the thermometer hung well above the goose egg. The prediction for Saturday is fair weather, with increased cold in the eastern portion of the state.

Cold Wave Brings Appeals From Poor For Fuel And Food

Distress of Appleton's poor families was made more acute by the cold wave which has hit this community. Appeals for fuel and for warm clothing poured into the five cooperative relief societies as the mercury began to fall, and the women of the societies were hard pushed, with the limited funds at their disposal, to take care of the immediate needs of the unfortunate.

Much more money is needed to take care of the 200 or more needy families in Appleton this winter. It takes a lot of money to keep even one family supplied with fuel, clothing and food when there are 200 that must be helped a large sum is required.

Many of the families on the lists of the five cooperating societies are entirely dependent upon charity for their existence and there are others who require help only at intervals. The majority of needy families try their best to help themselves but mothers with three or four small children are unable to earn enough money to keep the youngsters from starving and freezing.

Coal, wood, clothing and food must be provided. The children and their mothers cannot be permitted to starve. But it takes money to provide these things and the principal source of revenue is from Appleton's Good Fellows.

TAKE SLAYER OF POLICEMAN IN MILWAUKEE

Drunken Man Shoots Patrolman Who Attempts to Quiet Family Row

By Associated Press
Milwaukee — George Salmon wanted by the police for killing Patrolman Walter Luedtke following a quarrel in the home of Salmon's brother, was arrested shortly after 10:30 A. M. Friday.

Salmon was arrested in the rear of a candy store owned by Joseph Morisy where he gone after wandering the streets all night, according to the police.

He did not resist arrest when two detectives entered, but said "I'll go with you, but I did not fire the shot." When taken to the police station he continued to deny having done the shooting.

Salmon said he wandered the streets all night, and at one time purchased a ticket for Chicago but decided not to use it. Salmon was wanted for killing Patrolman Walter Luedtke Thursday night when the patrolman entered the home of Louis Salmon where George was creating a disturbance.

Earlier in the day, Louis Salmon's daughters, Gladys, 9, and Vera, 11, went to visit their uncle. They had recently had their hair bobbed, and their uncle disapproved but urged the children to stay for the evening meal.

Several hours later, George Salmon who had been drinking went to his brother's home and berated his wife for not permitting the girl to stay at his place for supper and also declaring himself opposed to hair bobbing.

He became so violent that the girls ran to the street and asked Patrolman Luedtke to come. He entered and was warned by Louis that his brother was armed. The patrolman, however placed him under arrest and walked him from the house. When party went to the street, two shots were fired and the patrolman sank to the sidewalk.

Two other men attempted to catch Salmon, but he escaped after firing several shots at his brother's house.

This city seems to merit undue consideration by the weather, however, for it lacks much of the storm, temperature and hardship that are prevalent in other parts of the country. Lives have been lost at several places and at others the weather is so cold and the snow so plentiful that transportation is tied up and communication affected.

ESCAPES DAMAGE

Practically no damage was done by the sleet of Wednesday night in and near Appleton. The town was affected little by the snowfall of about three inches. Trains from the south were running about an hour late but this was due in part to the heavy ice on the tracks, and in part to the heavy traffic, express and mail. Interurbans, street cars and motorbuses maintained about their usual schedules.

Winter descended so gradually that people hardly seem to mind the fact that the temperature was zero. The ground has been snowcovered for several weeks and many of the days have been cold enough to accustom the public to wintry weather. When the augmented condition of Friday came, therefore, it was taken as a matter of course. The official thermometer at Schlafer Hardware Co. showed a temperature of 2 degrees above zero at 7 o'clock Friday morning. The cold increased gradually and at noon it registered 0. The mercury stood at 7 above Thursday evening when the snowstorm started.

NORTH IS HARDEST HIT

Northern Wisconsin was hardest hit with the lowest report from Superior, which unofficially reported 20 degrees below.

At Milwaukee the mercury dropped to 5 above with the prospect of from 8 to 15 below weather before Saturday morning. Thursday and a half inches of snow fell in the city in the past 24 hours.

Rail and transportation lines reported some damage chiefly to lines being down, but service was not seriously impaired. Milwaukee lay in the path of the northern edge of the storm that caused damage in western and middle western states. While the prospect is for colder weather in northern Wisconsin Friday night the forecast promises a thaw in northern and the northwest portion of the state beginning Friday.

Three deaths are reported in Milwaukee as indirect results of the storm. Alfred Peter, 62, was killed when Harley Elbert, Milwaukee motorist, blinded by the storm, ran his car into a wagon driven by Peters off the Port Washington road, John Hart, 67, near the Federal outlet. Albert Davis, an 11-year-old Negro boy, was fatally hurt when struck by a motor car when his sled coasted into a city street.

FRANCE DENIES PLAN TO PROSECUTE IBANEZ

By Associated Press
Paris — The French foreign office officially denied Friday any intention to attempt the prosecution of Vicente Blasco Ibanez, the Spanish author. The report that it would initiate such a prosecution because of the publication of his pamphlet against King Alfonso was printed in a Paris newspaper Thursday. The proposed action, the paper stated, was due to a protest made by the Spanish government through the embassy, and was to be based on a law dating from the second empire.

LOSS IN ELEVATOR BLAZE IS \$300,000

By Associated Press
Jefferson — Fire of unknown origin discovered Thursday night swept through the feed plant of the Ladisch Stoppenbach Co., at Jefferson Junction, 3 miles north of here, causing a loss estimated by Edward Blum, plant manager, at between \$250,000 and \$300,000.

The fire, still burning Friday, destroyed the four-story work house and three story mill, together with \$150,000 worth of machinery and \$50,000 worth of grain and feed. A fire wall and grain elevator separating the mill from warehouses at each end saved \$100,000 worth of grain.

Jefferson, Port Arkison, Lake Jefferson, Johnson Creek and Westport fire departments responded to calls for help but were powerless, a deep well offering the only water supply.

YOUNG MOTHER AND BABE BURN TO DEATH IN HOTEL

By Associated Press
Canton, Ohio.—Mrs. Eva Lewis, 19, and her 2-year-old daughter were burned to death here when their fire destroyed the Carlton hotel early Friday. The woman's husband, Oliver Lewis, a miner, was severely burned, but escaped death by leaping from a window. It is believed the blaze started by a gas stove that was left burning during the night.

NOT GUILTY, IS HOOVER PLEA IN SLAYING CASE

Milwaukee.—Wendell Hoover, 22 years old, charged with killing of Vera T. Rossard, 35-year-old choir singer, pleaded not guilty through his attorney when arraigned here Friday and the case was postponed until Dec. 24. Hoover continued to deny his guilt Friday, declaring that he knew nothing whatever of the manner in which the woman met her death.

VOLUME OF MAIL IS INCREASING AS CHRISTMAS NEARS

Postal Employees Urge Early Mailing of Greeting Cards and Letters

Christmas mailing is increasing in volume at the Appleton postoffice and every incoming train is bringing in heavy loads of mail. The increase began to be noticeable last Monday, and every day the amount of mail grows. Most of the Christmas mail thus far has consisted of parcels. Post-offices are, however, would like to see the mailing of Christmas greeting cards more active than it is at this time. It is feared that the postoffice will be deluged with cards the first three days of next week which means that congestion and delayed deliveries will be the result.

With Christmas coming on Thursday, or about the middle of the week, this year, the congestion is likely to be felt more than ever. Postmaster Zuehlke has observed in his many years of service in the postoffice that when Christmas comes on a Monday or Tuesday, Christmas mailing starts at a much earlier date. But when it comes in the middle or latter part of the week, persons delay their Christmas parcels and cards to the very last day and hour.

DEFER CITIES CONTEST MEETINGS UNTIL LATER

Committees in charge of the better cities contest of the Wisconsin Conference of Social Work, have deferred their meetings until after the holidays.

The work of inventorying the city according to the standards of the contest will continue, however. It is the expectation of Mayor John Goodland, Jr., chairman, that a complete social inventory will have been made by the time a general meeting is scheduled in January.

Radio Singer On Program At Theatre

Radio fans who have been listening to contralto solos by Mrs. Closs Gossler broadcast from stations KQW, WJOL and WCAV will have an opportunity to see the contralto when she sings in Fischer's Appleton theatre as one of the feature numbers of the benefit performance for Appleton Welfare council next Monday afternoon. Mrs. Gossler has consented to sing a group of numbers at the performance.

Manager Louis Lutz of the theatre has offered to turn over the entire receipts of the afternoon performance to the Good Fellow club fund which is being raised for Appleton Welfare council. The feature picture will be "Triumph" with Leatrice Joy and Rod LaRocque in the principal roles.

FIREMEN ACT AS FARM HELP IN SLACK SEASON

By Associated Press
Sturtevant, Wis.—Thirty Americans who visit a famous old-fashioned wine restaurant in this city, which has a cellar that is known to connoisseurs all over Europe, are frequently surprised at not being able to obtain vintages which had been recommended to them by friends. The proprietor is an expert in blending food and wines and will not serve his choice wines to persons who order cocktails and begin smoking before their wines are served.

He insists that the cocktail and all other mixed drinks are a nuisance which should be confined to restaurants and bars which do not specialize in fine wines and will not waste his precious cellar on men and women who spoil their taste for delicate wine by mixing tobacco up with their dinner.

By Associated Press
Sturtevant, Wis.—Although this town does not average a fire a month, the fire department is not allowed to loaf. In summer the firemen operate the municipal farm and in winter they are woodchoppers in the municipal forest. Income from the two sources have helped clear the town debt.

Miss Pearson Speaks
Miss Lucy Helen Pearson, director of Appleton Women's club, will speak on the "Meaning of Christmas" at 8 o'clock Saturday evening at the Salvation Army hall, 887 College-ave. Everyone interested in this subject is invited to be present.

Fresh Out Flowers on Sale Saturday. Phone your order. GEENEN'S

Schommer Funeral Home Model For Efficiency

With several months of remodeling completed, the Schommer Funeral Home has been opened for business at 846 Washington-st. Funeral equipment of the firm of N. C. Schommer & Son has been moved from 762 College-ave to the new establishment, making from College-ave the oldest business tenant in that block.

Schommer Art & Gift Shop will continue in the present store, however, until the latter part of January when it will be moved to Ryan Art store, Oneida-st. The college-ave property has been sold and the Schommer company has purchased the Ryan business.

Funerals can be handled with convenience and ease because of the arrangement of the Schommer home. The lower floor is devoted entirely to quarters for burial services and preparation of bodies and the upper floor to display of a large number of caskets.

An office occupies the front room to the right of the Washington-st. entrance and there are two reception rooms to the left of the corridor. They are so arranged that one can be used for accommodation of the public at a service and the other for the mourners, with privacy if desired. A third room at the rear of these two and an auxiliary room to the east are set aside as a place where the body may repose, and these also may be closed off from the others. The latter quarters are located conveniently to a wide corridor leading to a double door at the west. This opens to a platform where vehicles may be driven up to receive the casket or passengers.

Numerous changes were made on the exterior also following purchase of the house. The porch was removed and a colonial entrance built, with steps and floor of ornamental brick. The one-story wings at the east and west were rebuilt into 2-story units so as to give more space for the display room on the second floor. A trellised archway is to be placed across the east driveway and the grounds are to be beautified next spring with shrubbery according to a plan prepared by a Chicago landscape architect. The driveway encircles the building.

Harry Schommer has given up his Milwaukee business interests and has associated himself with his father, N. C. Schommer and his brother Edgar in the undertaking end of the business.

AMERICAN'S DUTY TO ALIEN IS TO SET GOOD EXAMPLE

Foreigner Tells Industrial Forum How Alien Regards This Country

An American's greatest national duty as a citizen is to make real citizens of the large alien population within his country by setting a good example, according to Harry Jackson, a subject of Great Britain, who spoke on America as Seen by an Alien at the meeting of the Industrial Forum Wednesday evening in the Y. M. C. A. Mr. Jackson has traveled through Europe and Asia and now is living in this country, but has not yet become a citizen.

Every alien admitted to this country is a potential citizen, Mr. Jackson said. His mode of living and his attitude toward America's institutions and laws, either consciously or unconsciously is moulded by the conduct of the Americans with whom he is in daily contact. As every alien in this country has an obligation to it he can never hope to repay, citizens of this country have an obligation to the alien. This obligation is one of example. The alien must be taught observance and respect for law and order without which no community can ever hope to prosper. An alien's horizon is limited to the city or county in which he resides. When the people of that place elect a mayor or senator the alien feels that he is a man of great honor and ability and trusts in him. He follows an example in all ways and it is up to the citizens to put honest men in office and set high ideals for the benefit of the alien. If he is misled the country will feel it later, Mr. Jackson said. In admitting an alien to citizenship he receives an honor which money cannot buy. In order to maintain this honor he must live up to his oaths and be a law abiding man. Here is where example counts. Americans often break the smaller laws and do not realize they are breaking down their country's citizenship by this example. If they thought of this there would be fewer laws broken. America is the greatest country in the world for the opportunity. If her citizens help the alien to take advantage of these opportunities, she will excel in all ways and be a land of the best citizenship.

TEN MORE BOYS ENTER Y. M. C. A. HOBBY SHOW

Indications are that the 1925 New Years day hobby show of the boys' division of the Y. M. C. A. will be the largest ever held by the local association. Another 10 names have been added to an already large entry list bringing the total to 32. An entry list of 50 is expected by Jan. 1. New entries are Melvin Bartz, Cyril Schneider, Harold Rads, Howard Menner, Wilmer Schiefer, Jr., Robert Neller, Ted Bolton, Chester Agrell, Merton Zahrt and Norman Treas.

OLD-TIME CABBY TAKES MISFORTUNE WITH SMILE

By Associated Press
London—London's oldest cab driver is Joe Mindon, who has been 60 years in the box, and whose greatest pride is the fact that the late King Edward was for years one of his regular "fares."
Motorization of the means of transportation in London has left old Joe almost without employment, and he talks jauntily of acquiring a taxicab. Asked for his opinion of the taxi the aged cabby said reflectively:
"They drive us off the streets in the same way the buses are driving them off. And as for the traffic, we'll soon have to start burrowing underground. Give me the old days with clear streets and a smart horse, and time for a nap on the box if you liked."

OCCUPY NEW HOUSES 21 DAYS AFTER STARTING

Vienna—What is said to be a record for Central Europe was made here recently when a number of houses were completed and ready for occupancy within three weeks. The houses were erected as an experiment owing to a dearth of dwellings here and it is planned to build more by the

Pioneer Farmer Has Honor Of Being Great Grand-Dad

FRIEDERICH RACH of Baldwin Mills, a village located near Weyauwega, knows how it feels to be a great grandfather, as the picture above will bear out. It shows him seated beside his son, Otto A. Rach (center), his grand-daughter, Mrs. Lester D. Bonnell (left) and his great-grandson, Duwain Bonnell, the baby in the arms of his mother.
Mr. Rach is one of the early settlers of this locality. He is 73 years old, having been born Dec. 18, 1846 at Posen, Germany. He reached this country in 1870 and after residing for a year at Winneconne came to Baldwin Mills. He now resides with his son Louis at that place.
Wedding bells rang for the pioneer citizen in March, 1873, when he married Mrs. Wilhelmina Appor Kopitzke, who was the mother of seven children by her first marriage. The family lived on the homestead which Mr. and Mrs. Kopitzke previously had claimed and proved in town of Royalton, Waupaca-co. Two sons were born of their marriage, Louis, a farmer living at Baldwin Mills, and Otto, who is chief of police at Weyauwega.
Marshal Otto A. Rach, 45, was born

hundreds if the scheme proves practical.

The frame of the houses consisted of two sets of boarding which were set four to five inches apart, the intervening space between the boarding being filled with sawdust which had been treated with a chemical preparation which made it non-inflammable. A coating of plastering was applied to the outside of the boarding and a family from the Vienna slums moved into their new home 21 days after the work was begun.

Have You Piles?

Then You Have Something to Learn
Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.
Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonhardt was first to find the remedy. His prescription HEM-ROID, is now sold by all druggists. Dr. Leonhardt tried it in 1000 cases with the marvelous record of success in 98 per cent and then decided it should be sold under a rigid money-back guarantee.
Don't waste any more time with outside applications. Get a package of HEM-ROID from Schlitz Bros. today. It has given safe and lasting relief to thousands and should do the same for you—it seldom fails.

You will find everything from Kodaks to Combs, and everything is the best.

CHEESEMAKERS ASK FREIGHT RATE CUT

Senator Lenroot Urged to Use Influence to Reduce Present Tariffs

The Wisconsin Cheese Producers' Federation has placed before Sen. Irvine Lenroot the fact that the cheese industry has been especially hard hit by the high freight rates, and an effort is being made to secure his help in lowering the present rates. This is in line with the recommendation of a special agricultural commission appointed by President Coolidge for lower freight rates on agricultural products. The communication states that Wisconsin produced 332,000,000 pounds of cheese, or more than 70 percent of all the cheese produced in the United States in 1923.

The worst feature of the situation is the attitude of the carriers, the letter states. They believe that because no other territory produces cheese in quantities sufficient to transport, and there is, therefore, no competition to keep the rates at a lower level, the Wisconsin output should take the full class basis of rates, an application of the old theory of what the traffic will bear. Other products, such as butter, come from other sections of the country also and in order to get them into competing markets, rates are kept to a considerably lower level.

The transportation charges on most all other commodities are 150 per cent of what they were in 1917. On the other hand, to some territories, rates on cheese are as high as 250 per cent of what they were in 1917. This is because the carriers have cancelled commodity rates, abolished any quantity rates, increased their charges and increased the class rate scales under which cheese moves in a large volume.

Since cheese is the primary dairy product of Wisconsin, taking more than a third of the total milk production, it is highly important that it be allowed to find markets at reasonable rates. Despite its enormous growth in the last few years the industry is still in the development stage in the outcover sections of northern Wisconsin which are especially adapted to dairying, the communication declares.

SEASON FOR STEALING CARS IS STILL OPEN

The motoring season may be drawing to a close, but car thefts continue. It is apparent from reports received daily at the Appleton police station. The latest automobile theft to occur in this part of the state is that of a Ford roadster at Fond du Lac at 9 o'clock Wednesday evening. Appleton police have been asked to join in the search for it. It is a 1924 model car and bore license number A157-251.

RECEIVE BOOKS ABOUT STATE'S TAX PROBLEM

Appleton public library and Appleton high school have been supplied with copies of a book entitled "The Tax Problem in Wisconsin." It is a volume of 164 pages prepared by experts of the National Industrial Conference board for Wisconsin Manufacturers association. Two hundred copies have been mailed on request to date to principals of schools, 210 to city libraries and the total distribution will amount to about 1,500 copies.

BUILDING A TOOTH

Good teeth are built out of vital foods. Building a tooth is not the simple process it seems. Nature regards it so important that she takes a long time to perfect one.

Scott's Emulsion

supplies elements needful to aid normal growth and construct sound bones and strong teeth.

A food- tonic of rare value, Scott's Emulsion gives the best results when taken regularly after meals. Try it.

MUSCLE SHOALS
The senate, and incidentally Washington, is in high turmoil over the Underwood bill for the disposal of Muscle Shoals to a private corporation. The plan is as ardently defended as it is bitterly attacked. Senator Norris, with the ferret sense of Progressive for smelling out woodchuck in his hole, says it is a gigantic scheme to turn this project over to a power trust controlled by Wall Street. He says: "The concessions proposed in the Underwood bill are so great that it makes Teapot Dome look like a pinhead," and considerable more along the same line.

We do not profess to know what the merits of this controversy are. The weighing of the facts which recommend the bill against the circumstances which condemn it is a matter which requires straight, clear and honest thinking, together with good business judgment. We doubt if the politicians who are stirred to oratorical heights, either for or against the proposal, are thinking very clearly. There is too much flaring of breasts and beating of pom-poms. A deal of heat and passion has been injected into the debate, which is another way of saying that it is burning up with politics. It may be, as asserted in some quarters, that this plant is not going to be the God-send to farmers in the furnishing of cheap fertilizer that has been promised. Undoubtedly, power generated by this undertaking is of primary importance. It makes no difference whether it is applied to the manufacture of nitrates and fertilizer, or whether it is used for some other purpose, the power is the thing.

It is difficult to believe that a conspiracy is abroad to rob the government of its interest and title to Muscle Shoals, or that if it exists it can succeed. The president has given the matter a great deal of investigation and thought. The offer for Muscle Shoals has been made in the open and of course has been subjected to careful scrutiny. If there were any real ground for suspecting or fearing that there was corruption in the deal we are sure the president would have nothing to do with it, and would be the first to condemn it. The administration has just come through the fiery ordeal of the Fall Doheney-Sumner scandal. It does not want another on its hands and it is not likely to be misled into playing into the hands of conspirators.

President Coolidge is said to favor the Underwood bill. If that is the case and it passes and he does not change his mind in the meantime, it will be pretty good evidence to the American people that it is a fair solution of the Muscle Shoals problem. We do not think there is any real sentiment in the country in favor of government operation of this plant. Public opinion is for putting it into private hands, properly safeguarding public interests. The president's attitude toward its disposal will be the determining factor, so far as public confidence in what is done is concerned. If he takes the responsibility of approving the Underwood measure, that should satisfy the people, and we think it will. On the other hand, if there is anything vitally wrong with this proposal, or if there is the slightest reason to suspect treachery or corruption, we may be sure the president will veto the bill and give satisfactory reasons for doing so.

ADMINISTRATION OF THE TAX LAW
The senate committee investigating the internal revenue bureau is authority for the statement that hearings held recently have disclosed much evidence of lack of uniformity in carrying out the laws and rules and regulations of the bureau. It is asserted that this lack of uniformity has worked injustice to taxpayers, excessive reduction in taxes in some cases and in the apparent "loss of millions of dollars to the government." Specific cases are cited in support of this assertion, including such industrial organizations as the United States Steel corporation and certain other business concerns, in whose behalf large amortization claims have been allowed.

The committee is careful to specify that it has found no dishonesty and does not charge dishonesty. What it assumes to disclose is, to use its own words, "looseness" in the administration of the law. Senator Crenshaw, who is particularly keen as well as sensitive on tax questions, has taken up the findings of the committee for airing and congressional consideration. It will not be difficult for the public to believe there is looseness in the operation of the internal revenue bureau. It is bound up in so much red tape and in so many involved applications of the tax law that its difficulties are numerous and severe. There are few large taxpayers who have not had troublesome and often disappointing experiences with the agents and rulings of this bureau. Many cases arise of wrongs done through a strict or arbitrary interpretation of the law, and it is probable that injustices, as between taxpayers, have resulted from too liberal a construction of the law.

The most serious impediment to the equitable and proper administration of the law is the law itself. Congress is responsible for this. If congress can simplify the law so as to minimize the exercise of discretion and remove the cloud of uncertainty that rests over its application, it will be doing something in the interest of its fair and efficient administration.

CAPE COD CANAL
Eastern and southern states combined are united behind the Cape Cod canal project, aiming to take the canal out of private hands by purchase and run it under federal control for the benefit of all eastern coastwise shipping. President Coolidge has supported the bill and it has a good chance of passing the senate at the present sitting, already having been accepted by the lower house.

No breath of popular opposition to the canal, so far as we know, has come from the middle west. It is a desirable project taking federal funds contributed by the entire nation to boost the shipping business along one coast, increasing the safety of coal barges, truck steamers and similar traffic between Boston and points south which at present make the risky fog and storm voyage around the cape. What is good for an important producing and buying section of America, the middle west thinks, is good for all of us.

A little of the same spirit from the eastern seaboard with respect to the St. Lawrence seaway would be appreciated by way of reciprocity.

TODAY'S POEM
By HAL COCHRAN

THE COAL MAN.
THEN the day days are mellow, how a kindly welcome fellow is the man who brings the coal we need so bad. When upon empty hearth and cold we see him come, we turn to him from the frosty elements to quicken and warm.
Yes, the coal he brings is golden and his words are first of cheer. We applaud him loud when he comes. And his lines are never dragged while he's perched upon the wagon that contains the coal that shall be our aid.
As he turns to the door, on the back of his hand a coal he will drop and gaze with envy at his work. Even his wife will be envious of coal for a moment, and it's not until he's within that it's his.
Master Coal Man, due much credit for the cheer you bring. You and the fellow who follows you, for you both bring the warmth which is life. We feel safe when warmth is coming on a winter's day, and you both bring it.
(Copyright, 1924, NEA Service, Inc.)
The coal men are raising more plants than Americans now. They always have raised more coal.
Japanese do not care for dogs as house pets, but we can't help it, as making a good dog is hard.

Health Talks
BY WILLIAM BRADY, M. D.
Noted Physician and Author
Dr. Brady will answer all signed letters pertaining to health. Writer's names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

HOW COME THE ATTACK OF HEMORRHOIDS.
Remember the first word I uttered in this series of talks about varicose hemorrhoidal veins (piles) was cancer. I said cancer is one of the conditions which are too frequently mistaken for and mis-treated as "piles". Neither pain, nor bleeding, nor itching warrants a diagnosis of piles. People who make their own diagnosis of piles and physicians who accept a ready-made diagnosis in lieu of an examination, make many errors, some of which are disastrous. Several common conditions which it would do no good to mention here are mistaken for "piles" and wrongly treated when guesswork is preferred to precision.
So-called "blind" piles are hemorrhoids within the sphincter—internal hemorrhoids. External hemorrhoids are outside and may be a bleeding pile and often the bleeding is within and in frequent small hemorrhages which the victim is perhaps unaware of, especially when there is no present "attack" or painful inflammation. Usually so-called "itching piles" is not piles at all.
It should be fairly evident to any reader of ordinary intelligence that no remedy purporting to be a logical and sensible cure for years—can cure varicose veins in the legs by some mysterious medication or other kind of treatment as it is to assume that there is such a thing as "pile cure".
The "attack" of piles may be alleviated by medications and suitable physical measures, but a victim of hemorrhoids should not betray his credulity by assuming that when the "attack" subsides the piles are cured. In some cases there may be one attack and no more attacks for years—but once the hemorrhoidal veins have become varicose—which means piles—they will forever remain varicose, until they are destroyed by nature or by surgery. Nature is sometimes a successful surgeon. Nature's way of destroying a hemorrhoid, however, is tedious and painful and wears the victim down badly and even then may prove a failure. It consists of clotting of the blood within and about the hemorrhoid, and eventual healing and scar formation where the pile was in the beginning.
An individual may therefore have just one attack of piles—which means acute inflammation of the varicose vein or veins—and never a second attack, because either nature or the surgeon has destroyed the affected portion of vein. Or even after nature or the surgeon has destroyed the pile, the individual may have subsequent attacks of piles if other loops or tufts of hemorrhoidal veins become varicose and inflamed, as is likely if the individual breaks the rules of hygiene we have already indicated as factors to piles.

Varicose veins in the leg cause no great suffering or disability unless they become inflamed—phlebitis. The same circumstances apply to varicose veins about the outlet of the alimentary tract—and incidentally this "attack of piles" is phlebitis too. Discomfort and annoyance, and sometimes bleeding, are practically all the trouble one subject to hemorrhoids experiences until he has an "attack". One attack, especially of the thrombotic type (clotting in the affected vein) is painful enough to suffice for a lifetime, however. Yet some people insist on having attacks of piles every little while, and next time we'll try to tell them how foolish that is.

QUESTIONS AND ANSWERS.
Sally With Indecent, can get salt with iodine for use on the table and in cooking as a preventative against rot and premature old age and the willies and all those other fates in store for victims of the iodine shortage. (Mrs. H. J. C.)
Answer—At least three large salt manufacturers are now marketing through the grocery trade iodized salt. I should be glad to name them for you, by mail. I cannot tell you which groceries supply the salt.

LOOKING BACKWARD
TWENTY-FIVE YEARS AGO.
Friday, Dec. 22, 1899.
J. A. Hawes was to continue a manager of Appleton Waterworks under the leadership of Herman Erb.
L. H. Ryan was at Tipton figuring on a job of plumbing for a new store building.
Mrs. L. M. Alexander and her mother, Mrs. John Edwards, gave \$2,500 to build a Methodist chapel at Port Edwards.
Harry Penn, who was attending school in Milwaukee, arrived home last night for the holidays. He went to work for the vacation period at his old position in the postoffice.
Railroads operating out of Appleton announced advance rates of fare and one third to a number of points.
The expensive Christmas card which was all the rage a few years ago was a thing of the past.
J. S. Van Nortwick and family who were at Rome, were Captain J. M. True that they had as yet seen a city which could compare with Appleton. Mr. Van Nortwick said he had yet to visit a town where there were so many pretty and intelligent girls.
Two marriage ceremonies were performed by Judge J. H. Cook at his residence Wednesday night. The couples were Cornelius Lockey and Edna Favel, and Oliver Favel and Catherine Van Heutem. Each couple witnessed the ceremony of the other.
A. A. Cook of Neenah, announced that the new paper mill at Alexandria, Ind., owned by Alexandria Paper and Investment Co., would begin operation Jan. 1. Officers of the company were: S. A. Cook, president; M. H. Ballou, vice president and manager; A. E. Dunker, secretary and treasurer.

TEN YEARS AGO.
Friday, Dec. 18, 1914.
Margaret Schilling, 7-year-old daughter of Mr. and Mrs. John Schilling, Onondaga, suffered a small fracture of the skull when she was knocked down by a Collegeville and Appleton by a Ford automobile.
Eastern railroads were granted a five per cent increase in freight rates involving a total of \$50,000,000.
John Strumpf of Danbury, was taken to St. Elizabeth hospital yesterday afternoon for treatment. He broke both his feet while at work on his farm.
Fifty years ago this week the first railroad engine rolled into this city on the Chicago and North western line.
Supervisors J. J. McDaniels of Kaukauna, and Harry Shannan of Appleton, were taking the annual inventory of the county's property at the court house.

An eleven pound daughter was born this morning to Mr. and Mrs. Henry Marx, State street.
Mrs. J. S. Van Nortwick entertained 16 guests at a formal dinner at her home on Prospect last evening. The evening was spent playing bridge and the prize winners were Mrs. C. W. Howard of Neenah and Howard Reeves of Spokane, Wash.
Meat dealers reached an agreement with the city council of weights and measures that hereafter they would weigh meats and trimmings with meat or charge a higher price for meat that had been boned.

plaster it on thick and even "crackles"
it and then dare to chew gum.

ROLLO

Common Cold Gains Ear Of Science

BY FREDERIC J. HASKIN
Washington, D. C.—The United States is now producing among other things—more than 200,000,000 colds a year. This is only a rough estimate. It is a rather conservative one. The public health service is making the first nationwide study of colds, and it has already announced that among fairly representative groups of persons only 10 per cent had no colds and the other 90 per cent had an average of almost two colds during a five-and-one-half month period.
Doctors have not paid much attention to this, even though they realize that the common cold often leads to serious maladies. For some reason, however, the head cold has at last gained the attention of science. The public health service is making some studies of causes and treatment in its national survey. The chemical warfare service is still experimenting with chlorine gas treatment. Individual physicians are also contributing their ideas and experiences. At the convention of medical men in New Orleans a few weeks ago, a symposium of colds was a feature of the program. In Washington an interesting paper was recently read before a medical society by a physician who has been devoting a good deal of attention to the neglected subject of colds.

WANT PERMANENT CURE
This physician who is Dr. Walter A. Wells, a specialist in diseases of the nose and throat, presented some practical views. He is of the opinion that micro-organisms have been given too much prominence as the cause of colds. Emphasis has been laid on the fact that colds are infectious, and many an individual believes that he is safe so long as he avoids being kissed by a person with a cold, and so long as he is careful in other ways not get a knock-out dose of germs. The specialist says that this belief has led to an over dependence upon the use of vaccine and local antiseptics in treating colds. These remedies attack the germs, but they can not render anyone invulnerable.
Chlorine gas, for instance, is being used by the war department and some doctors as a treatment for colds. About three doses are necessary to vanquish germs, and the sufferer, as a rule, is left more or less free from cold germs, for the time being. This gives his nose and throat a chance to get a fresh start, or a fresh cold, according to whether he is careful or careless in his habits.
One reason why colds are so much more frequent in winter than in summer is that in winter we are constantly experiencing a striking variety of temperatures. The changes in themselves may not be dangerous, but the conditions which accompany them frequently are. Rooms that are overheated rarely have any fresh air circulating in them. The hot, still atmosphere of such a room is over-dry. With the rising temperature, the air has an increasing affinity for water vapor, and it abstracts what moisture it can from the air passages of the human being in the room. This places a strain upon the nose and throat passages. In addition, poisons from exhalation and fuel and possibly from gas jets are being breathed. The remedy is to admit fresher, cooler air, and it is preferable to open windows and doors wide for a few minutes rather than to keep a window partly open.

A number of other causes of colds have more or less directly connected with the air and with external conditions. Clothing is often responsible for cold. Too heavy clothes, especially when worn indoors, interferes with the body's own method of regulating its heat. Eating too much rich food and too little of the fruits and vegetables, upsets the digestive organs. When this happens "the by products of disordered metabolism circulate in the blood give rise to constant irritation in the mucous membranes, thus leading to congestion and preparing the way for infection," says Dr. Wells.
Apparently every time a rule of hygienic living is broken it starts off a "house that Jack built" series of processes which logically ends in the all too common cold. The person who would render himself sturdily resistant to atmospheric forces plus germs should take exercise, get enough sleep, bath frequently, wear sensible clothing, eat sensible food, and avoid badly ventilated rooms.

MEN--- GIVE HER HOSIERY FOR THIS CHRISTMAS
If you only knew how the women folks like good hosiery, you would surely give her some of this "Finery" hose with the Corral band this year. This is a regular high grade \$2.25 hose that we are offering for only \$1.35. A splendid assortment to select from. Every pair especially wrapped for Christmas Gifts.
Per Pair \$1.35

TWO FLOORS OF GOOD THINGS TO WEAR

Adventures In The Library
By ARNOLD MULDER

WHEN THE HERO WAS IN FASHION
The hero has gone out of fashion and hero-worship is today looked upon as a false religion. The ultra modern person does not believe in heroes today and by analogy he reasons that since there are no heroes today there were no heroes in the past. He puts the so-called great man of his day under an analytical microscope and finds him made of the same stuff that all men are made of, and he reasons that the same must thing be true of the heroes of the past.
H. G. Wells pulls Alexander and Caesar and Napoleon off their pedestals and tucks their royal noses, and Lytton Strachey puts Queen Victoria and Gordon on the dissecting table and shows that one was only an ignorant old woman, the other a domineering and tyrannical organizer, and the third a bundle of superstition. No, the hero is very much out of fashion and hero-worship is classed with sun-worship and other out-worn superstitions.
HAVE TO TURN BACK
So much is the hero derided today that out of pure perversity one turns with something like relief to an earlier day when the hero was on the throne and when worship of him was good form. Today it would not be

lating in the blood give rise to constant irritation in the mucous membranes, thus leading to congestion and preparing the way for infection," says Dr. Wells.
Apparently every time a rule of hygienic living is broken it starts off a "house that Jack built" series of processes which logically ends in the all too common cold. The person who would render himself sturdily resistant to atmospheric forces plus germs should take exercise, get enough sleep, bath frequently, wear sensible clothing, eat sensible food, and avoid badly ventilated rooms.

De Molay Boys Planning Party For New Years

The John F. Rose chapter, Order of DeMolay, probably will be in charge of a New Year's eve party in Masonic temple, to which all members of the Masonic lodge will be invited. This party will take the place of the sleighride which had been scheduled by the chapter, and the social committee will be in charge. This is at present only a tentative plan, but if no other entertainments are being planned for Masonic temple, the party will be held.

A large class of candidates received the initiatory degree at a meeting Thursday evening. A special meeting is called for Tuesday evening in the boys reception room in Masonic temple. A Christmas program and social will occur at this time. There will be no regular meeting on Thursday because of Christmas. Election of officers will take place at the next regular meeting.

CLUB MEETINGS

Miss Helen Lehrer, 1160 Fourth-st, entertained the Jolly Sixteen at a Christmas party Thursday evening. Games and music occupied the evening. Honors at dice went to the Misses Adeline Bosch, Ruth Timmers and Catherine Olm. Santa Claus appeared during the evening and distributed gifts. Miss Helen Loessel will entertain the club at the next meeting.

Small guests of the girls of the recreation department of Appleton Women's club will be entertained in the lounge of the clubhouse from 3 to 5 o'clock Sunday afternoon. Games, singing of Christmas songs, and stories of the Christmas season will be the program of the cozy, and a Christmas treat upon, which gifts will be placed, will be the climax of the afternoon.

PARTIES

Mrs. A. H. Finger, 657 Drew-st, entertained at a 6 o'clock dinner Thursday evening for three Appleton school teachers. The guests of honor were the Misses Lona Drahelm, Dora Smith and Aurelia Whittinger.

Mrs. Oscar Miller entertained the Club of Five Thursday afternoon at her home at 834 Fox-st. Prizes at schachkopf were won by Mrs. Otto Fredericks and Mrs. Frank Jones. This will be the last meeting until after the new year.

A Christmas program will be given Friday evening by the pupils of Old Glory school in the school. Parents and friends of the children are invited to be present. The program is being directed by Miss Myrtle Trentlago, teacher of the school.

The Appleton Girls club will meet at 8 o'clock Friday evening for a Christmas party in Appleton Women's club. Each member is asked to dress as a little girl. Gifts will be exchanged, and games will furnish entertainment during the evening. The hostesses are Mabel Younger, Vera Pynn and Theresa Sonntag.

CHURCH SOCIETIES

Miss Gladys Rabehl will give a talk at the meeting of the Evangelical League of Christian Endeavor at 6:45 P. M. Friday evening at Emmanuel Evangelical church. Her subject will be the Origin of the Christmas festival. The program will be in charge of the Christian work committee. Special music will be furnished by a men's choir.

Children Will Be Guests At Holiday Party

A children's Christmas party under the auspices of the Girl Scouts and Camp Fire girls of Appleton will be held at 2 o'clock Sunday afternoon in Elk hall. Miss Eleanor Halls, local Girl Scout director, will be in charge of the party, assisted by Miss Martha Chandler, head of the recreation department, and Miss Doris Ewell, instructor in physical education. Santa Claus and his Christmas tree will be on the program of the afternoon, and small gifts will be given the guests.

Although the list of guests has already been made up, and invitation sent out, if there are any mothers whose children were particularly interested in the first production of the Children's Theater, "Snicker-Nick and the Giants," and who would like to see the repeated performance of the second production, "Why the Chimes Rang," they will be welcome. This little play, which is being presented in Columbia hall at 4 o'clock Friday afternoon, will be given again for the children on Saturday. The object of these Children's Theater entertainments is to provide the right kind of amusement for children, and they will be continued throughout the year.

Girls Wrap Presents For Mission School

About sixteen members of the Queen Esther society of Methodist Episcopal church were present at the pot luck supper and Christmas party Thursday evening in the church. Each girl brought some possession which had become a "white elephant" to her, and, after drawing names, presented it to the girl whose name she had drawn.

Many of the girls wrapped the Christmas gifts which they had been making for the girls in a mountain white school in Kentucky. The gifts were work baskets, fitted with needles, thimble, and thread and decorated with Christmas bows.

Games and the singing of Christmas carols was the program for the evening.

LODGE NEWS

Mrs. Guy Manning was elected pas-oracle of Royal Neighbors Thursday evening at the short business meeting which preceded the Christmas card party in Odd Fellows hall. Twenty-two tables were in play at the party and prizes were won by Miss Lillian Shimmers and Earl Bates, bridge; William Mallon and H. Skold; Fred Kuntzman, Marie Detrain and Mrs. Albert Fraser, schachkopf. The next meeting which would have occurred on New Year's day will be omitted. Installation of officers will take place at the last meeting, in January. Mrs. George Hogreiver was general chairman of Thursday's party.

Health was discussed at the meeting of the Women's Christian Temperance union Thursday afternoon at the home of Mrs. William Fish, 1011 College-ave. Mrs. John Graef led the discussion, dealing with Fatigue and Rest, Fruits, and Their Uses, and Adequate Diet. The next meeting will be held in three weeks.

CHRISTMAS CANDIES

M m m m . . .

YOUNGSTERS, OLDSTERS and MIDDLESTERS—all of them enjoy candy, and especially good candy such as they know they can get at Downer's.

Candy and Christmas go together. We know this, and have here a large and varied assortment of the best candies done up attractively in boxes of from one to five pounds. Many of them come in gay holiday boxes.

You find nothing but candy at its wholesomest and at its best in a store like Downer's. We are making a special showing this year of Liggett's and Park and Tifford Candies—both of them aristocrats of the candy world.

Quality is expressed in each box of candy sold in this store—just as it is expressed in every other article for sale here.

May we suggest the few following boxes of candy as being particularly appropriate as a Christmas gift?

2½ Pounds of Assorted Chocolates 85c

Lyons California Glace Fruit in redwood box ... \$1.50 and \$3.00

Two Pounds Hard Candy in Box 69c

Assorted Chocolates in Xmas wrapped boxes from 40c up to \$6.50

Nurses Are Guests At Neenah Home

Mrs. C. H. Clark, entertained the nurses of Theda Clark hospital, Thursday evening at her home on Wisconsin-ave at Neenah. The program for the evening consisted of readings, "The Birds' Christmas Dinner," by Mrs. John Chapman; and "A Confidence," by Edna Casey. Dancing, and singing of Christmas carols followed and gifts were given the nurses by Mrs. Clark. The guests also brought gifts and gave them to each other. Each nurse wrote an appropriate verse to accompany her gift.

HUGE CROWD SEES SCHOOL CHILDREN SING IN CANTATA

Story of Nativity Is Artistic
Triumph for Kaukauna
Pupils

Kaukauna—A very large crowd at the presentation of the Nativity Story Thursday evening in the high school auditorium. The musical and dramatic production was staged by about 450 pupils of the schools under the auspices of the Kaukauna Parent-Teachers' association.

The program opened with an instrumental selection entitled "Around the Christmas Tree" by Hildegarde Regenfuß. Dorothy Hans Veronica O'Donnell, Gretchen Driessen, L. E. Driessen, Laura Knickerbocker, Emmet Rohan and Miss Flora Heise "Bethlehem's Light," an A-Capella number by the high school choir. The club was well the part of Mary and the feature numbers of the evening.

The male quartet of the high school made its first public appearance and sang "We Have Seen His Star in the East." The quartet is composed of William Voelz, first tenor; John Parant, second tenor; Carl Grimm, first bass; and Lester Lindermuth, second bass.

"Sing We Noel" and "Christmas Day in the Morning" were two numbers rendered during part No. 1 of the program by the chorus composed of about 250 children's voices. "Nativity" also was sung by the chorus with solo parts by Willis Miller and Ross Farwell.

Part two was a portrayal of the story of the Christ Child's birth. Harvey Dix acted as reader. Catherine Mayer took the part of Mary and Lester Lindermuth took the role of Joseph. Cornelius Mayer, Kenneth Ryan and Harold Coleman were the three kings. Angels were children from the kindergartens of Park and Nicolet schools and from junior high with Mary Boyd as their leader.

Part three of the production showed the adoration of the nations and groups of Russians, French, German, Dutch, Spanish and American boys and girls appeared before the manger of the Christ Child singing hymns and offering praise to the new born King. Each group was in typical native costume.

The Dutch group was composed of June Cech, Pearl Dittman, Margaret Ann Flanagan, Patricia Kline, Alice Elizabeth Main, Blanche Chick, Alice Kuehn, Matilda Cookway, Margaret Hoelne, Milton Rohm, Robert Krueger, Harold Heitling, Ruth Ludeke, Joyce Knickerbocker, Bertha Wuyts, Vernon Bussard, Darold Tousey.

Children in the group representing Americans were Dorothy Look, Hugo Gehr, Wilma Kall, Dorothy Mooney, Lucille Mann, Lester Spice, Alice Tashen, Violet Schumann, Ruth Kuehn, Carl Heilman, Raymond Hipp, Donald Smith, Ruth Gorchals, Debra Schuman, Esther Spice, Debra Licht, Barbara Weitz, Lorraine Pleschek, Harold Doering, Maiva Densch, Stenencie Hellman, Arthur Turk, Viri Alker, Helen White, Lucille Darrow, Russell Smith, Dorothy Dix, Robert Baigle, Leah Sage. The Russian group was made up of the following: Aita Pahl, Madeline Froehammer, Lucille Johnson, Dorothy Hahnemann, Ethel Dix, Lois Weber, Lucille Kuba, Lucy Pozzrov, Irene Paschen, Ruth Mann, Phyllis Dix, Gladys Grimmer.

Among those who made up the German group were Marie Cech, Debra Dittman, Elaine Frank, Mabel Hilgenberg, Judson Judas, Wilma Jirikowic, Edna Krebser, Gretchen Krahn, Eugene Lambie, Edward Mitchell, Irma Nagel, Ned Nichols, Paul Stubbs, Helen Schwendeman.

ROLL BIG SCORES WIN PIN BATTLE

Kaukauna—By rolling over 900 in two games the Kaukauna Lumber Co. bowlers were able to cop two out of three from Andrews Oil Co. in a league match on Hilgenberg alley, Wednesday evening. They lost the first game 570 to 600. Scores in the last two games were 920 to 832 and 988 to 854. Summary: Andrews Oil Co. Won 1 Lost 2. Andrews 200, 157, 189, 546; Egan 185, 129, 182, 496; Francois 150, 200, 223, 573; Dravonick 185, 165, 190, 540; Peterson 150, 180, 170, 531; Total 2638. Lumber Co. Won 2 Lost 1. Tremow 180, 170, 186, 536; Graf 170, 193, 158, 521; Heimke 185, 185, 224, 593; Finke 151, 193, 193, 547; Hilgenberg 174, 174, 212, 560; Total 2,778.

Miss Arabella, principal of the school while Carl Grimm was both superintendent and stage hand. Eva Metcalf took the role of Santa Claus. Leo Schmalz was the crippled husband and Lucille Lang was his wife. Violet Redman played a part as a daughter of the couple. Helen Weibach, Angela Gossens and Amanda Haid were the triplets Jane, Joan and Jean who took an interesting part in the play with the play.

The rich uncle who appeared on the scene to taking the husband and his family back into his favor in time to make it a joyous Christmas was Merritt Cavanaugh. The part of Jake the janitor was taken by Abe Golden. Others who furnished interruptions during rehearsals were the negro florist, Homer Metz, the negro scrubwoman, Isabel Tornow; the Swedish scrubwoman, Dorothy VanLieshout; students of the school; Helen Martens as Ruth; Leo Schmalz as Tom; Helen Wiggers as Alice and Margaret DeBrue as Marie. The first scene of the play showed the students assembling for rehearsal and the second portrayed the almost vain efforts of the students to learn their production by the following night. The scene in Act two represented a railroad station with the students taking for the train to take them to their homes for the holidays. A very cleverly prepared dance by two snowmen who really were Cleo Baygorceon and Amatha Gossens, was given during this act.

PREPARE SPECIAL MUSIC FOR MIDNIGHT SERVICES

Kaukauna—A Christmas service of great interest to music lovers has been prepared by musicians of the Mary church and will be conducted at the annual midnight mass next Wednesday night. Rehearsals have

been held for several weeks under the leadership of Edward Galambier. An invitation has been extended to the public to attend.

A double string quartet with organ accompaniment will play "Bethany" from 11:39 till 11:50. "Silent Night" by a chorus and with instrumental accompaniment, will follow.

Other musical numbers during the midnight service will be "Festival Mass in E Flat," "Adeste Fideles," the latter to be rendered during offertory.

For communion the string quartet will again play, "Come Ye to Bethlehem" by Danks will be the closing number.

New London RepresentativeCLUBS WILL GIVE
40 FAMILIES AIDRotary, Lions and Civ. League
Will Give Baskets at
Christmas

Special to The Post-Crescent
New London—The Lions and Rotary clubs, assisted by the Civic Improvement league, have completed arrangements to assist needy families at Christmas as they did at Thanksgiving. The two clubs furnish the necessary money and the women do the baking and prepare the baskets for distribution.

About 40 families are on the lists for Christmas cheer.

NEW LONDON
PERSONALS

Special to Post-Crescent
New London—Misses Adeline and Reta Pearson, who attend school here, will leave Saturday for their home at Wausau to spend the Christmas vacation.

Miss Janet Holtz will spend the weekend with her sister, Miss Grace Holtz who teaches the State Road school near Manawa. Miss Holtz will give a Christmas entertainment at her school and will spend her two weeks' vacation at her home here.

A. L. Haase, who has been in northern Michigan in the interest of the Hattien Lumber Co. for the last week returned home Friday.

Mrs. H. B. Cristy has left for New Richmond where she will spend the holidays with her parents.

Mrs. W. H. Sheldon has returned from a few days' visit at the home of her son, Lyle at Oxford.

Irvin Huntley has occupied the Oscar Nock houses on Smith-st.

Miss Irene Jennings is home from Madison to spend the holidays.

Miss Ida Gleason was called to her home in New Richmond because of the illness of her brother.

Miss Berna Behrman of Oshkosh normal school is visiting at the home of her aunt, Mrs. George Blonday.

Mrs. Ed Bodah and daughters of Bowler, are visiting at the home of Mrs. Bodah's mother, Mrs. Anna Polzin.

Mrs. W. B. Polley is spending the week at Milwaukee.

Mrs. John Yost and son are visiting relatives in Milwaukee.

**HOLD FUNERAL SATURDAY
FOR MRS. MOSE BELONGER**

Special to The Post-Crescent
New London—Funeral services for Mrs. Mose Belonger, who died at Maple Creek Thursday morning, will be held at 10 o'clock Saturday morning at Most Precious Blood church. The Rev. Otto Kolbe will have charge and will be assisted by the Rev. Theodore Kolbe of Hortonville, and the Rev. M. Alt, Bear Creek. Burial will be made in the Catholic cemetery.

SOCIAL WHIRL IN
NEW LONDON

New London — Fireside circle met at the home of Martin Abraham Wednesday evening. William Marks and Mrs. Arthur Bunko won high honors at cards and Mrs. Emil Gorgas and Arthur Bunko received consolation favors.

Knights of Columbus entertained their wives and friends at a dinner at Knights of Columbus hall Wednesday evening. About 75 were served. Attorney John Morgan of Appleton, was the principal speaker of the evening. Misses Dorothy Bentz and Venice Jerrenner danced and Miss Rose Kische sang.

Leisure Hour club had its annual Christmas party at Mrs. John Croak's home Thursday evening. Mrs. Henry Knappstein, Jr., Mrs. Nels Secord and Mrs. David Engen were assistant hostesses. Mrs. Ike Poepke won first prize at five hundred and Mrs. Martin Stewart, the consolation favor.

Mrs. F. E. Patchen entertained the Ten Pin club Friday afternoon.

Miss Mary Wendlandt entertained Tuesday evening in honor of her twelfth birthday anniversary. Six o'clock dinner was served after which games furnished the evening's entertainment. The guests were: Margaret Ann King, Jane Bontz, Dorothy and Marjorie Zang, Helen Jane Remick, John Dassel, Helen Abraham, T. A. Abraham, Alice Zelter and Helen Mulhaney.

Mrs. Roy Bruce entertained the Jolly Eight club Thursday afternoon.

Mrs. George Richards will entertain the West Side club at a Christmas party Tuesday, Dec. 30.

Amite club met with Mr. and Mrs. Charles Palmer Thursday evening.

J. G. S. Club will meet with Mr. and Mrs. Irvin Monchin Sunday, Dec. 21.

The annual election of the Beavers lodge has been postponed until sometime in January.

Dialog, "Mamma's Boy"; dialog, "The Broken Picture"; song, "December"; dialog, "Paw Gets Took"; duet, dialog, "Will Thou Mabel?"; dialog, "Hiring a Schoolma'am"; talking act, "A Minute"; Norman Plankow and Raymond Thomas; play, "Hans Von Smash"; music, "Goodbye, Leona Withuhn"; closing song, "Santa Is Coming."

**CHRISTIAN MOTHERS NAME
MRS. DEVINE PRESIDENT**

Blackville—After the 10 o'clock mass in St. Edward church Sunday, the Christian Mothers society held its election of officers. Mrs. Van Devine was elected president; Mrs. John Drogang, vice president; and Mrs. James Elar, secretary-treasurer.

Miss Gladys Williams, teacher of Brookside school, spent the weekend with her parents in Kaukauna.

Miss Nellie McDermott, supervising teacher, visited Valley View school Thursday afternoon, Dec. 11.

Miss Aldretha Reinke left for Appleton Tuesday where she will be employed during the winter.

Mr. and Mrs. George Reiland and Mr. and Mrs. Paul Bure and family spent Friday evening, Dec. 12, with Mr. and Mrs. John Drogang.

Miss Genevieve Dressing spent Sunday with friends at Appleton.

Mike Gainer is ill with pneumonia. Pupils of Valley View school will have their annual Christmas party, Wednesday, Dec. 24.

SEYMOUR TAX RATE
IS FIXED AT \$27
FOR COMING YEAR

Rate Is Same As Year Ago—
Township of Seymour Will
Pay Less

Special to Post-Crescent
Seymour—Property owners of this city will pay the same tax rate as last year, \$27 on each thousand dollars of assessed valuation. The township of Seymour, will pay one percent less than in 1923, as its rate has been fixed at \$11 per thousand.

This year's tax levy for the city is \$40,131.72 and that of a year ago was \$42,061. The school tax is \$1,500 less than that of last year. Homestead exemptions totaled \$103,673.

Valuation of the town of Seymour has been fixed for 1924 at \$1,740,231 and with homestead exemption of \$94,190 leaves the net levy \$1,646,041. The rate of \$11, however, will bring in enough revenue for expenses of the township. Last year's valuation was \$1,736,450 and the tax rate \$12.

Exemptions of \$500 on each home under the homestead law have affected the amount of taxes very little this year but it is expected the tax rate will be much higher a year hence.

Social Items

Kaukauna—A surprise party was given Thursday evening in honor of Mrs. Otto Wendland at her home. About 15 ladies were present. Prizes at games were won by Mrs. George Lau, Mrs. John Skalmusky and Mrs. Louis Rogers.

Union Camp No. 2,365, Royal Neighbors of America, will hold a covered dish Christmas party in Odd Fellow hall at 7 o'clock next Tuesday evening. Christmas gifts will be exchanged. The usual business meeting will follow the party.

THREE NATIONS WILL
USE SILESIAN HANGAR

Gleiwitz, Silesia—"Three Nations" airframe will be opened soon on a large flying field south of this city. At the place the boundaries of Germany, Poland and Czechoslovakia meet.

NEW LAMP BURNS
94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up; is simple, clean and safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, E. M. Johnson, 609 W. Lake-St. Chicago, Ill., is offering to send a lamp on 10 days' FREE trial, or even to give on FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make \$250 to \$500 per month.

Good Fellows Club

The fund which is being raised by Appleton Good Fellows to take care of the city's poor families has largely passed \$1,000, about one-third of the amount required to carry on relief work during the winter. There will be hundreds of Good Fellows whose names should be in the list printed herewith.

Every nickel given by the Good Fellows will be used for the poor. There is no expense for administration nor for collection. The Good Fellows money is turned over to the five cooperating relief societies to be used to care for the needy.

DEATHS

MRS. MOSE BELONGER
Mrs. Adeline Belonger 60, wife of Mose Belonger, died at 6 o'clock Thursday morning at her home at Maple Creek after an illness of one year with creeping paralysis. She was born at Maple Creek and lived there except for 19 years spent at Lebanon. She was married 44 years ago.

The funeral will be held at 10 o'clock Saturday morning at Most Precious Blood church, New London, with the Rev. Otto Kolbe in charge.

Mrs. Belonger is survived by her widower, six children, Mrs. Jude Reed, Maple Creek; Mrs. Ed Rossey, New London; Vern, New London; George, Milwaukee; Cyrus and Melvin, at home; her mother, Mrs. Greenier, Bear Creek; six sisters, Mrs. David Roberts and Mrs. Joseph Roberts, Jr., and Mrs. Joseph Baltazor, New London; Mrs. Louis Baltazor, New London; Mrs. Louis Baltazor, Wittenberg; four brothers, William, George and Alec Bricker, Wittenberg; Saul Balcoo, Bear Creek.

JOHN SCHNEIDER
John Schneider, 90, died at 7:30 Thursday evening at his home, 901 State-st. He was born in Cologne, Germany, in 1834, and came to America with his parents in 1854 locating in Milwaukee for a short time. Mr. Schneider came to Appleton in 1858, and engaged in the hoop and stove business. He married Miss Amelia Michler of Manitowoc on Aug. 5, 1871, and made his home at first on the corner of Superior-st and College-ave, and

ARRANGE VALLEY SCOUT CONTEST

Scoutmasters of Valley council, Boy Scouts of America, will meet for supper at 6:15 Monday evening at the Y. M. C. A. to discuss plans for an intertroop efficiency contest.

This contest is to be conducted during the months of January, February and March. Plans also will be made for the next rally of Valley council at Kaukauna during boy scout anniversary week, Feb. 8 to 14. Other matters of interest to valley troops as a whole will be discussed.

This is the first meeting of scoutmasters since P. G. Ketcher assumed charge as valley executive.

Miss Virginia Brooks returned home from school Friday morning to spend the holidays. She has been attending Dana Hall, Wellesly, Mass.

since that time he has lived on State-st.

He is survived by his widow, two daughters, Katherine, Appleton, Mildred, Menomonie; five sons, John, Two Rivers; William, Frank and Andrew, Appleton; George, Wisconsin Rapids.

The funeral will be held at 2 o'clock Monday afternoon from the late residence, with the Rev. Virgil Scott in charge of the service. Interment will be in Riverside cemetery.

Books advertised by Ideal Photo & Gift Shop should read: Juvenile Books, not "Bokey Books."

section and is employed in a cheese factory near Tustin.

John Kauffman and family moved to Appleton last week. They will reside on Superior-st.

Herbert Philipp, who has been employed as teacher at Milwaukee, is home on a vacation.

Miss Jane Usher left for Oshkosh Saturday to spend a few days.

Tom there will go to Wausau to spend the winter.

Mr. and Mrs. E. Doster of Hortonville, visited at William Van Bussum's Sunday.

Graham Crackers Start Him Right

ONE of the first "high-chair" foods recommended by doctors is graham crackers, with pure, pasteurized milk. Most children have a natural liking for these fresh, crisp crackers made by Johnston. Rich in those nutrition elements that produce sturdy bodies and ruddy cheeks, Johnston's Grahams should be in every home where there are growing youngsters.

Buy them from your grocer — in bulk or in moisture-proof cartons.

Johnston's

Cookies & Crackers

Every Johnston Graham Cracker is stamped R.A.J.

A Gift for the hours of Play is Most Ideal and if he is a:---

FISHERMAN—A Rod, a reel, a tackle box, a silk line will please.

HUNTER—A gun, a hatchet, a flashlight, or hunting coat will register well.

GOLFER—A golf bag, a set of clubs, or even just one club, golf balls initialed by us appeal.

BOY—A cowboy suit, Indian suit, baseball suit, policeman's suit, or fireman's suit, a pair of skis or skates, an electric train, a sled, a wagon, an automobile—will make a merry Christmas for him.

Toys in profusion.

Gifts for the hours of play are the gifts that display the proper Christmas spirit. The play and sport of men and women, boys and girls is our business and we serve as headquarters for the proper equipment.

GEENEN'S DRY GOODS

ROOM HALF MILE LONG IS FOUND IN TEXAS CAVE

Only Means of Ingress Is in Steel Bucket Dropped Into Cavern

By Associated Press

Austin, Texas—Dangling at the end of a wire rope 170 feet into the unexplored recesses of many thousands of bats, the governor of the largest state in the Union and the governor of an adjoining state recently explored the great Carlsbad cavern. It covered not long ago in the Guadalupe mountains of southern New Mexico. The only means of ingress is in a steel bucket which holds two persons if they are not too large. The two governors, Pat M. Neff of Texas and J. F. Hinkle of New Mexico, recently explored the cavern.

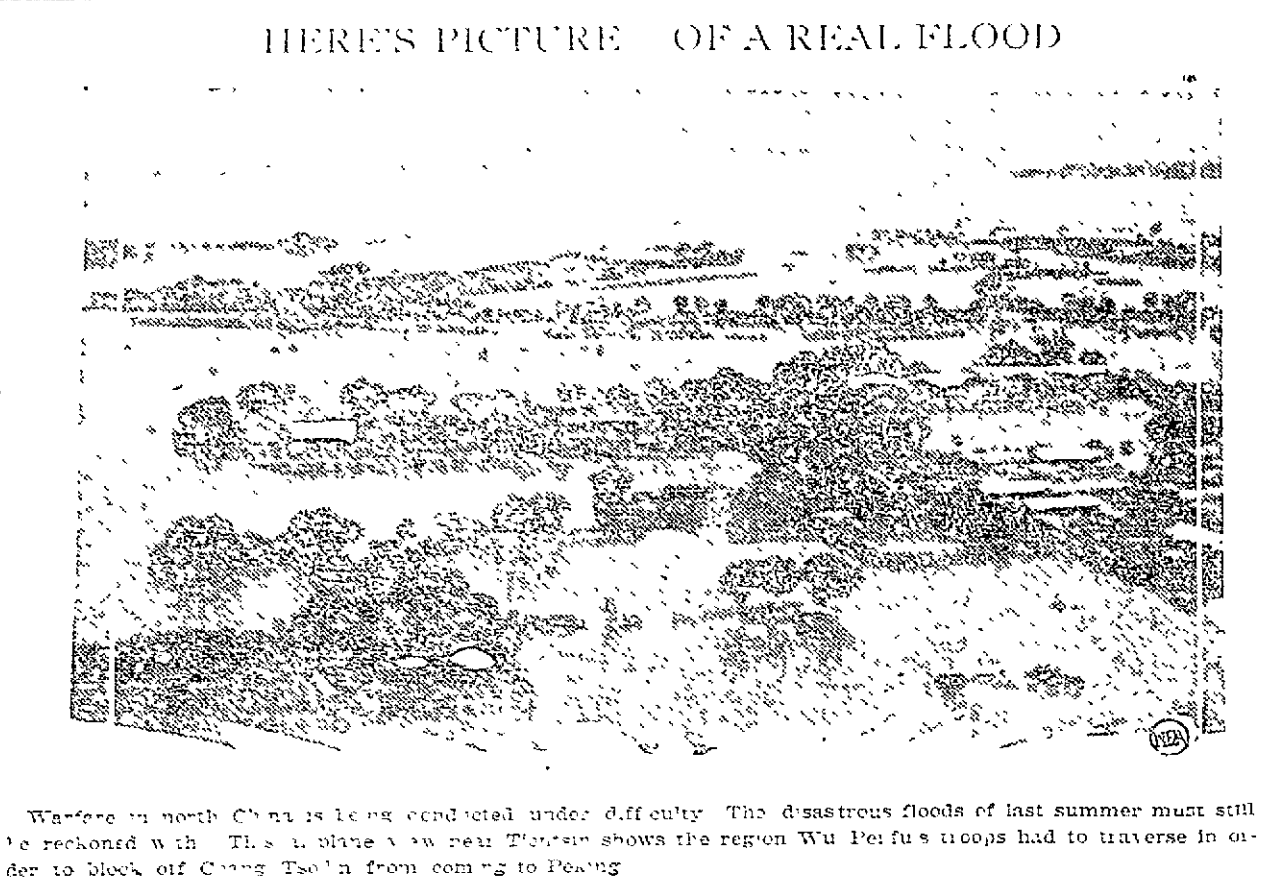

The less scenic part of Carlsbad cavern has been known for many years as a bat cave. Recently explorers traversed several miles of its halls and chambers, and some parts of it were found to have such startling magnificence that President Coolidge by proclamation set it aside as the Carlsbad National Monument.

This cave is among the largest in the world and presents many marvels. From prehistoric times it seems the bats have made their homes here amid the striking underground scenery. For several years large quantities of guano have been shipped from the cave.

At dusk the bats begin to leave the cave for their night of feeding. For about three hours the aged stream resembles smoke pouring from a smokestack. In the early morning they return, each folding its wings when in midair above the opening of the cave and dropping down into the shaft like a plummet.

The opening of the cavern is in New Mexico but the cave itself extends into Texas. The cave has not been fully explored and its dimensions are not known. It is believed to go down 800 feet below sealevel. The ceilings in some places are so high that a person standing on the floor cannot see them even with strong torches.

At the entrance 700 feet below are three large rooms. The biggest is called Shinarump. The name is from the Navajo Indian mythology. The smallest is 100 feet long by 150 feet wide. The largest has not been measured. The three are decorated with gleaming stalactites and thousands of stalactites. Still another big room farther on is more than a half mile in length. The stalactites rise from the floor like great white monuments and the glittering sides and ceiling resemble the banquet room of a mythological king.

Warfare in north China is being conducted under difficulty. The disastrous floods of last summer must still be reckoned with. This airplane view near Tientsin shows the region Wu Pei-fu troops had to traverse in order to block off Chang Tse-shan from coming to Peking.

GRAND OPERA FOR NICKEL BY PHONE

By Associated Press

Munich—"Put a nickel in the slot and hear tonight's opera performance in the State opera house," is the latest Munich slogan. The telephone administration has just opened four opera hearing halls in Munich suburbs where long rows of pay telephones wait for customers, eager to hear grand opera for 50 pfennigs.

Telephone subscribers may use their phones at home against a monthly fee for the opera service. When the subscriber, who listens to grand opera is wanted by another subscriber, the change interrupts the entertainment for the duration of the conversation. The transmission is entirely over wires and has nothing to do with radio. Subscribers however are allowed to hook up amplifier units and loudspeakers, as used in the radio field.

FREE! FREE! FREE! A new Date Recipe Booklet.

Here is something new—a date recipe booklet. Dates have been related to a kind for thousands of years. It is only recently that the American people have learned their splendid food value.

Their origin from eastern Asia, then a special native value to modern civilization, has been the time and manner of their use, and the necessity to know their health benefits often lacking in the light of proposed foods of civilization.

Hereafter use this booklet as a guide, using this booklet as a guide, and the lack of imagination is gone.

We offer a date booklet giving the best recipes and facts, for been devised about the world's most popular fruit. The booklet is free copy of the booklet.

SMALL CHANCE TO RAISE LUSITANIA

Weight of the Sea Sufficient to Crush Boat Into Unrecognizable Shape

London—Changes are that the Lusitania, sunk off the Irish coast by a German torpedo in May 1915, never will be raised, according to David Masters, author of a book which describes the wonders of salvage.

The sheer weight of the sea, the water joints out, quickly obliterates the ship's handiwork, and the Lusitania probably ceased to be a ship years ago. It is extremely likely that the tremendous pressure to which she was subjected at the depth of 283 feet long ago crushed her flat, he says.

The 10,000-ton safe, full of valuables, would be strong enough, one

might think, to resist the pressure of the sea, but even the chances of raising the safe alone from the liner's strong room do not appeal to the writer as being worth the risk.

Scores of schemes have been proposed for salvaging the Lusitania. An American has proposed to use a submarine which would fire torpedoes through the hull. Each torpedo would carry a steel cable. When sufficient cables had been fired they would be picked up on the other side, brought to the surface and the wreck lifted from the depths. Experts say this ingenious scheme is simple in theory, but impracticable, and that the Lusitania remains, and is likely to remain, where she sunk more than nine years ago.

ATTENTION!
Equitable Fraternal Union assessments will be collected at Schueler's on Saturday evenings only from 7:30 to 9:30.
M. J. O'Connor, Sec.

ARGENTINE PROUD OF HOME PRODUCTS

By Associated Press

Buenos Aires—An industrial exhibition intended to show the progress attained in manufacture in Argentina, and with the hope of discouraging the practice of putting foreign labels on Argentine-made goods, will be held in Buenos Aires in December. It is being organized by the Argentine Industrial Union under the auspices of the government.

The organizers expect to demonstrate the superiority of many Argentine manufactured goods over similar foreign products, and that there is no necessity of pretending they are imported in order to make them saleable. Many manufacturers have complained that they are unable to sell their goods to retailers, unless they bear American, English, German, or French labels, and they welcome

BAVARIAN CASTLE IS LIGHTED SECOND TIME

By Associated Press

Munich—Mirror hall in the castle Herrenchiemsee recently was illuminated by its 8,500 candles for the second time since the castle was built. The occasion was a gathering of Bavaria's first citizens, including members of the royal family, invited by the government.

The first complete illumination of mirror hall and its adjacent rooms was in 1886, ordered by Prince Regent Luitpold to honor the Shah of Persia then visiting the Bavarian court.

any propaganda such as this exhibition to show that Argentine wares are as good as or better than the same class of imported ones.

The organizers believe the public will be surprised to see the enormous strides made in Argentine industries since the last industrial exhibition held in Buenos Aires in 1910, and the variety of goods made.

Pump Pennies or Motor Dollars?

YOU can go bargain hunting for gas and get whatever you're looking for. If you are fascinated with the saving of a penny or so per gallon at the moment of filling, there is a perfect forest of parti-colored pumps bristling on the highways where they'll gladly give you your wish.

But if you measure gas values in the larger terms of motor dollars—if you look beyond chickenfeed change to the yawning door of the overhaul shop—if you care for the comfort of quick, certain starting, smooth running and guaranteed protection from the engine-aging ravages of kerosene and free carbon—

then you will turn in to the pumps of True Gasoline!

Wadham's True Gasoline

is the staple year-round fuel of full vaporization, quick firing, velvet running, long mileage and positive immunity from kerosenish elements. Unlike heavy pump-cheap fuels, it requires no over-rich, expensive mixture for running nor dangerous excess of priming to start.

DISCOVERIES IN NEVADA CAVE MAY REVEAL OLD CITY

Scientists of State University Read Secret of Past in Lehman Caves

By Associated Press
Rly., Nev.—Scientists of the University of Nevada, in an exploration party headed by Governor J. C. Scruggs, recently have read again the pages of the past in caverns near the famed Lehman Caves and found them rich in archaeological lore.

Figuring found on the rock wall of a cavern, said to be undeniably Aztec, leads Dr. B. F. Schappelle, archaeologist of the university, to believe the discovery one of the most important in recent years. The finding of pottery in the caves also moves the pottery line about 300 miles further north than any ever before found.

Dr. Schappelle and Dr. Peter Frandsen, biologist, have employed six men to assist in the work of excavating. The party found it difficult in places to discern the hieroglyphics, as cloudbursts had washed much debris into the caverns. Hieroglyphics resembling both Aztec and Egyptian work have been found and members of the party are optimistic in predicting that a veritable underground city will be discovered.

A strong flow of water was discovered 90 feet below the level of Baker Creek, and live angelfish were found at a depth of 100 feet. A burial cave with an opening four by six feet at the surface, leading to a large underground room, contained five human skeletons, the bones badly disintegrated due to extreme age.

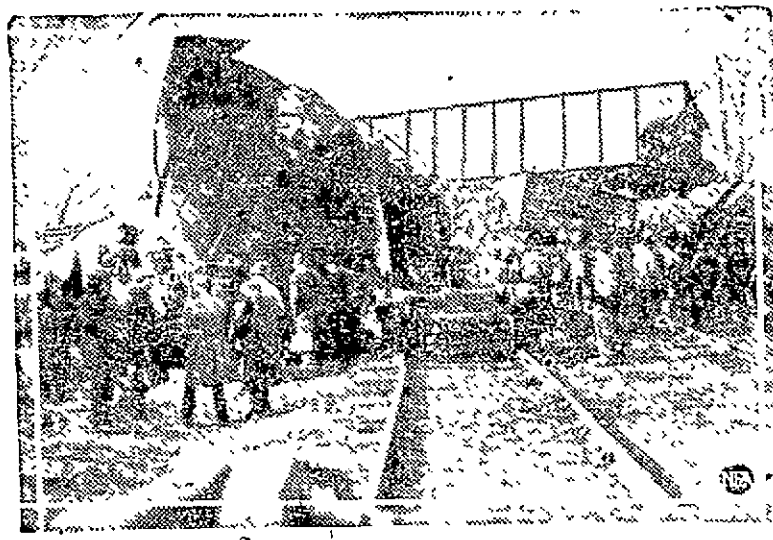

MARK PRINCE'S FIRST BIRTHDAY BY DISPLAY

By Associated Press
Belgrade—Celebration of the first anniversary of the birth of Prince Peter heir to the Jugo-Slavian throne was made the occasion of a great military display which has aroused much opposition in several quarters.

All the troops of the Belgrade garrisons were turned out, and the principal streets leading to the cathedral, where the principal ceremonies were held, was lined with infantry, the soldiers wearing steel shell helmets, while the side streets near the edifice were full of small artillery, machine guns and other warlike material.

The country is indeed quite proud of the years old prince, and his recent pictures, showing clearly that he has the traditional Karageorge nose, have been placed on sale everywhere.

AN OPEN SWITCH—AND DISASTER

One freight train hit an open switch at Richmond, Va., It was wrecked and a second freight train ran into the debris. Two were killed.

CHINESE PAY TO GET INTO PHILIPPINE ISLES

Manila.—The smuggling of Chinese from British North Borneo into the Philippine Islands has increased largely in recent months and has become a profitable traffic, according to officials of the customs service.

Within the last week nearly 50 Chinese have been arrested in Zamboanga on charges of being in the country unlawfully and will be de-

ported either to Borneo or Hongkong. They are brought from the coast of Borneo in native boats and landed on the various islands of the Sulu group only a few miles from the British possession. After reaching Philippine territory they easily work their way into the more populous sections, and many of them are never caught.

The customs authorities have ordered all available patrol boats to southern waters for the purpose of beginning a vigorous campaign against this traffic in Chinese as well as against the opium traffic.

SEAGIRT ICELAND DAILY GETS NEWS OF OUTSIDE WORLD

Three Daily Newspapers Published in Little Insular Capital

Reykjavik, Iceland.—Iceland, isolated from the rest of the world by hundreds of miles of stormy seas, is yet one of the best-informed countries with regard to current political and social problems, and to the Icelandic lander, even in the remote villages, the newspaper is a most valued adjunct of modern life. In this little capital city of 22,000 inhabitants, three newspapers are published daily and there are half a dozen weeklies. In each of the important towns one or two newspapers are published and

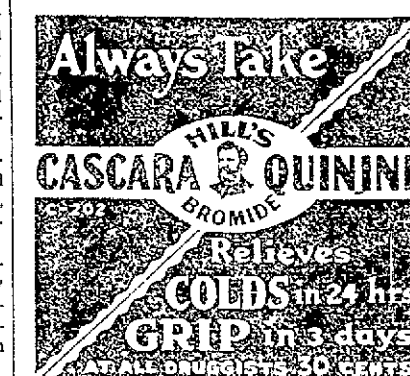

distributed throughout the contiguous district.

The Icelanders, all of whom are literate, and most of whom are inveterate readers of the classic as well as the modern literatures, are intensely interested in event of the world at large, and in Reykjavik a press association has been formed to bring in by cable dispatches from the principal capitals. Domestic news is handled by telegraph and telephone, and in the case of some remote districts, by couriers who travel by horseback over the rough mountain trails, fording river rivers and oftentimes risking their lives to reach the nearest telegraph or telephone office from which their dispatches may be filed. When the American world fliers reached Hornford in their recent flight across the Atlantic, they found awaiting them one local newspaper correspondent who had traveled by fishing boat from Reidisfjordur, nearly two hundred miles to the eastward.

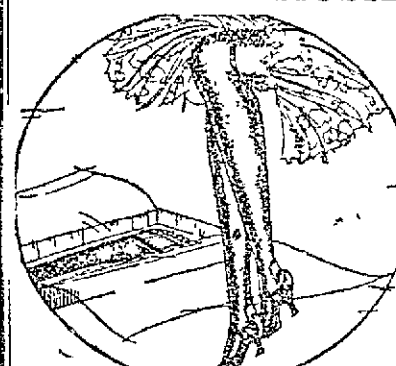

Although mails are slow in the remote districts, there is an unusually comprehensive telephone and telegraph system, and most of the smaller towns are in direct touch with the capital in this manner.

WOMEN JURORS LENIENT TO SOLDIERS, IS CLAIM

Dresden, Germany.—Declaring that "women jurors are entirely too soft on military offenders and therefore endanger the discipline of the army," the attorney general of Saxony has issued a decree that no military offenders shall be brought before civil courts with women jurors.

DODGE BROTHERS TOURING CAR FOR ALL-WEATHER DRIVING

The Touring Car is now bought for winter use as commonly as the closed types are bought for summer use.

This is largely due to notable improvements that have been achieved in the cut and design of the curtains. They fit closely, open and close with the doors, and make it possible to keep the interiors snug and warm in cold weather.

We also carry special curtains with glass windows which practically convert the car into the closed type.

CABBAGE GROWERS OF COUNTY VOTE TO INCORPORATE

Reelect Bixby President and
Discuss Organization for
Selling Product

Phil Bixby was reelected president of the Outagamie County Cabbage Growers association at the meeting Thursday afternoon at Appleton city hall. Other officers elected were Percy Blount, vice president; Robert Lundstrom, secretary; William Williams, treasurer; Walter Knapstein was elected a member of the board of directors. William Rose, William Williams, Percy Blount were reelected as officers members of the board. The association attempted to establish a standard strain of cabbage for the county, but after a discussion this was left for the next meeting. The group favored a standard seed, which has been used by the association for some time, but because of the very high price of this brand no action was taken. Blanks will be sent to members to be filled in with the amount of seed each will need for the coming year. In order to aid the secretary it was decided that the board of directors should arrange with the county equity society to distribute the seed for the coming year.

FAVOR INCORPORATION
L. W. Foster of the Wisconsin department of markets, Madison, spoke on the problems of cabbage growers emphasizing the need of a cabbage growers' association for the protection of individual members and the stressed the need for a selling association. He said that by incorporating instead of being on a partnership basis as the group now is, undue risks to the individual would be eliminated. Now every member of the organization is liable for all losses resulting from mistakes made by officers or directors whereas in the case of incorporation the member is liable for only what he has put into the treasury.

George Schmidt and Otto Rohm of the Outagamie County Union of the American Society of Equity spoke in favor of incorporating under the state laws. They stated the case of their society in which individuals came close to losing large sums of money recently and which has incorporated since that time. After a lengthy discussion a resolution was adopted which stated that because the year in which did a business of over \$1,200 and each member could be held liable individually in case of mishap a protective corporation should be formed, the said corporation to consist of all the regular members of the group. The board of directors was ordered to prepare a constitution and articles of incorporation.

BETTER MARKETS
In speaking on the selling plan, Mr. Foster said that by marketing the cabbage the grower would see his product a step nearer the door of the consumer. A marketing association puts business administration into the handling of cabbage. This will result in better cabbage, better shipping facilities and better markets. This or organization tomorrow can not be promoted by outsiders; it must come from the farmers themselves, because if they do not want it, it will not be successful, Mr. Foster said. He stated that his department would help all it could but the members must make the society. The farmers could learn to feed the market and not load it and so get the best prices, he said.

Otto Rohm spoke for the marketing organization during the cranberry and fruit growers associations and the cheese federation as examples of successful groups of this kind in the state.

The association went on record as favoring the sales proposition but no definite action will be taken until a later date. The directors and President Bixby were given power to appoint a committee of from five to seven members to keep the question alive and the members of the association were told to think it over thoroughly before acting. About 75 people were present.

BUS DRIVER TAKES DITCH TO AVOID HITTING FARMER

A bus operated on the Waubesa-Appleton line was damaged Thursday morning when the driver sent the machine into a ditch to avoid smashing a farmer's automobile. The farmer was driving north on Mascouta Second ave as the bus approached from the east. The farmer couldn't stop his car on the slippery street and

drove directly in front of the bus which was turned sharply off the road and collided with a post. The bus was damaged but no one was injured.

Just arrived: New Lace, Fibre, and Wool Scarfs in a variety of colors. \$2.75 to \$3.25.

ANNOUNCEMENT

An Authoritative Display
of all That's New in
Ladies' Footwear
at The Novelty Boot Shop

Never before in the history of Appleton has there been such a complete display of new modish footwear for women. Year after year the "Novelty's" prestige for new footwear fashions has been growing and today we are offering fourteen new patterns in Semi-dress Party Slippers and Pumps.

Our Buying Connections

In the eastern markets insure us the newest and latest selections of patterns, materials and lasts. No longer need you wait five to ten weeks after a pattern has made its initial bow to the cities. On many occasions we have displayed new patterns before they made their appearance in the city papers.

This Display Includes

many new and unique innovations. Blond Satin makes its initial bow in Appleton. Brown footwear in Pump and Strap pattern of Velvet, Bronze, Kid and Satin. New D'Orsay Pumps entirely different than past patterns, cut to hug the heel and eliminate the gap at the sides with high instep to prevent cutting. Beaded patterns in a number of styles, our plain patterns to be worn plain or with beautiful buckles or brilliants.

\$20,000 IS NOT ENOUGH TO EQUIP 4TH WARD SCHOOL

More Money Needed to Establish Junior High School on South Side

The \$20,000 which is in the city treasury for equipping the Fourth ward Junior High school is only a small portion of the amount required, according to estimates of Perkins, Holloway and Hamilton, of Chicago, architects who have been in charge of the Junior high school construction in the city. Their minimum sum needed to make the required changes is estimated at \$50,000, and the completed building would be without gymnasium facilities, even such as are at present available. This would be a great loss to the children because their gymnasium work has become a necessary and valuable part of their school curriculum and has much to do with their vigor in attacking their schoolwork.

WONT ENLARGE BUILDING
No actual enlargement of the present building is now contemplated. The blue prints which are in the hands of Frank Younger, principal, provide for several radical changes and many minor ones in the plan of the school. The manual training room which is on the first floor would be made into an assembly room, and the present assembly room would be converted into recreation rooms. This would do away with the gymnasium facilities now available. The manual training department would have its rooms in the basement. The home economics section of the building would be enlarged, and many stairways in the building changed to accommodate the new plan.

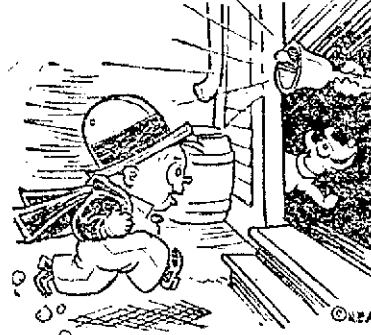

MOVE STAIRWAYS
A division by means of a corridor running through the whole building is also incorporated in the plans. This means that the north and south entrances and several stairways must be moved. These plans provide for the junior high school grades on the west side of the corridor, and the lower grades on the east. It is said that many parents of Fourth ward children would prefer to send their children to Menasha school than to send them to the Wilson or Roosevelt junior high schools in this city because of the many railroad tracks which must be crossed. They feel that the distance to Menasha is very little greater.

NEW SWEEPER KEEPS STREET CAR LINES OPEN

The new track sweeper purchased by the Wisconsin Traction, Light, Heat and Power Co., a few weeks ago and was put into service Thursday night

COLLEGE BOYS SEEK WORK DURING VACATION WEEKS

College boys who are working their way through school are most prominent among the men who want employment during the Christmas holidays, according to figures made known by the employment bureau of the Y. M. C. A. These boys have almost a month's vacation and would rather remain here and earn money for their schooling than go home if they can get jobs here during the rush season. They are willing to do any sort of work and their records show them to be capable workmen, according to C. L. Boynton, employment secretary.

To keep open the tracks during the snow storm. The sweeper passed over the lines in the city and cars were able to operate on schedule Friday morning.

The new sweeper is an improvement over the plow formerly used in the city and does much better work on paved streets. It opens a wider track and throws the snow far off to one side. The plow is to be used on the interurban lines and the sweeper will be employed in the city.

LEAGUE OF NATIONS IS OLD STORY WITH IROQUOIS INDIANS

Five Nations Still Maintain Ritual of Ancient Body 4 Centuries Old

By Associated Press
Washington.—The Iroquois Indians beat the League of Nations to it by four centuries. That is what J. N. B. Hewitt, of the Bureau of American Ethnology of the Smithsonian Institution has discovered through research of the "League of the Five Nations" which held sway in the New York country when America was young. He has just returned to Washington from further investigation of the organization, of which a remnant exists today in the province of Ontario and the state of New York.

As the Indians of old left no written records, Mr. Hewitt had to depend on tradition, as embodied in ritual, for his main source of information. So far as the present is concerned, 6,000 Indians at Brantford, in Ontario, keep alive the league, under arrangement with the Canadian government, and three small reservations in New York state more or less closely follow the old league regulations. These are the Onondaga reservation near Syracuse, with 685 Indians; the Oneida reservation near Akron, with 829 Indians; and the Tuscarora reservation near Lewiston, with 378 Indians. The preservation of peace was the objective of the League of the Five Nations. Women occupied a pre-eminent place in its structure, and naturalization, the referendum, initiative and recall had a place in its make-up. The Mohawk, the Onondaga, the Oneida, Cayuga, and the Seneca, tribes of Iroquoian blood established the league, with a mature constitution, and planned to bring into the federation, in time, all known tribes of men as allies.

Deganawida, the prophet statesman of the Iroquois, was its leading spirit. His name immortalized by the poet Longfellow, Atotapho, a wizard who at first bitterly opposed the plan, and Digoonsasen, a noted chief, urged the peaceful revolution. This was the more remarkable, Mr. Hewitt points out, in an age when fighting was fashionable.

The League of the Five Nations came historically into being between 1550 and 1570. It aimed at stamping out the blood feud system, which was killing off the bravest Indians of the nations, and eradicating whatever cannibalism existed. So powerful had the League become by 1701, that it was able to turn over to the King of England in trust a territory 300 miles long and 400 miles wide. Before asking others to disarm, the League disarmed itself. It was badly jarred by the War of the Revolution. Mr. Hewitt finds, but it has survived in a measure until today.

The Indian league had its "World Court" idea, too, for Mr. Hewitt points out that "the federal council sitting as a court without a jury, heard and determined cases in accordance with established rules and principles of procedure, and with precedent."

CHINESE GOVERNOR SETS GOOD PRECEPT

Tsingtao, China.—Governor Gao En-hung has caused it to be announced that he views with disfavor the custom of giving elaborate and expensive banquets, including such delicacies as sharks' fins and bird's nest soup. He regards any dinner costing more than 50 cents a plate as needlessly extravagant.

The governor seeks to set the fashion by wearing simple clothing of plain texture, refraining from appearing at public functions in silk and satin gowns. He urges the people to follow his example.

Recently the managing director of the Kiaochow-Tsinan railway issued to his employees a strict order against drinking and gambling and the use of drugs. He pointed out the bad effects of such indulgences, and declared he intended to make his men temperate and free from these common vices of the Chinese.

FORESTERS FIND HIDDEN GLACIER IN WASHINGTON

By Associated Press
Tacoma, Wash.—A new glacier has been discovered in the Olympic mountains by forest rangers. It was found on Muncaster mountain. Four foresters climbed the mountain, 2,000 feet high, and learned that the peak was split into two parts with a large glacier between them. The ice field is a mile wide.

The Olympic peninsula between Puget Sound and the Pacific Ocean is one of the wildest regions in the country. Parts of it have not yet been penetrated.

ST. PAUL, MINN., Dec. 19.—(AP)—The Wisconsin Traction, Light & Power Co. has been awarded a contract to build a new power plant at the site of the old one, near the city of St. Paul.

Collette Charry, of Paris, is considered the most talented child actress of Europe. She has a number of roles in her repertoire, and some critics say she inherently is a greater mimic than Jackie Coogan.

TOLSTOI BOURGEOIS, IS SOVIET VERDICT

Moscow.—Leo Tolstol had Bourgeois ideas and his works must be buried, asserted a panel of proletarian judges and writers recently after a formal trial in which the dead Tolstol was heard through his works and found guilty.

Krupskina, Lenin's widow, appeared before the judges in the role of state's attorney, while the soviet commissar for education, Lunacharsky, defended Tolstol. The following verdict was rendered:

"The former officers of the Czar's army, noblemen and estate owner, L. N. Tolstol, who died 13 years ago, is guilty of having distributed works with petty-bourgeois opinions while at the same time deliberately concealing everything referring to any dictatorship of the proletariat. In view of the

Good Will and Good Cheer Go Together

Good cheer and good will go together. Swift & Company puts its good will into acts of service, which extend from year's end to year's end, and are not confined to holiday seasons.

City homes that had to depend upon the country cousin for holiday fowl, and country homes that had to shoot wild game on the wing to make a feast for the assembled family clan—both now draw upon Swift & Company's vast supplies of delicious, fine-flavored roast beef and steaks and

Premium Milk-Fed Chickens Golden West Fowl Premium Hams

The system of the old days was good—but today's method is infinitely better. With the enormous increase in number of homes throughout the land, only a big organization, such as Swift & Company, can assemble and distribute enough fine holiday meats to make good cheer for everyone.

Ideals are of no avail unless translated into action. Swift & Company's ideals of service go into practice every day.

Look for the mark "U. S. Insp'd & P'd" on fresh meats and "Premium" and "Golden West" identifying tags on poultry.

ARGENTINES REPEL ITALIAN HOPE FOR DUO NATIONALISM

Argentine Educators Protest at Lectures of Former Prime Minister

Buenos Aires.—The recent visit to Argentina of Vittorio D. Orlando, former Italian prime minister, to give a course of lectures in the law department of the University of Buenos Aires, did not pass without a protest by some Argentine educators. These gentlemen regarded Signor Orlando as a propagandist for the policy of instilling loyalty to Italy among the children of Italian immigrants at the expense of their loyalty to the country of their birth.

One member of the Law faculty, Dr. Juan C. Reborn, refused to attend the lectures, as did also Dr. Al-

fredo L. Palacios, dean of the faculty of juridical and social sciences of the University of La Plata. They expressed themselves in correspondence which was distributed to the students and professors of all educational institutions, as opposed "to the maintenance of a theory which tends to create a double nationality for those who, having been born in Argentina, are, feel themselves, and wish to be Argentines."

Remarks by Signor Orlando on his arrival here were quoted in the correspondence as showing that he considered allegiance to Italy as the duty of those born of Italian blood in foreign lands. The professors also cited a manifesto published by prominent Italian residents in connection with the visit of Prince Humbert to Argentina, in which the prince was referred to as "the future sovereign of our sons." This, they described, as the fruit of the Italian policy to organize Italians in foreign lands.

This policy, remarked Dr. Reborn, "does not merely oppose the immigrant taking root in the country; it openly resists the orientation of the sentiments of his children. It publicly propagates the doctrine of 'jus sanguinis,' by which the son retains the

CZAR'S PRESERVE CLEARED OF TREES

By Associated Press
Bialystok, Poland.—The old hunting preserve of Czar Nicholas II has begun to disappear before the woodman's axe. The Polish government has granted a concession to a British company which will cut the timber and ship it to England.

Prior to the war the forest contained more wild game, including bison, than any other district in Europe. But most of the animals were killed off for food by German soldiers when they were mustered in this territory.

The Czar's old hunting lodge in the midst of the forest is now occupied by representatives of the British company. The forest became state property after the war, when Poland became a republic.

nationality of his father, a doctrine which Argentine law and Argentine thought must refuse as destructive."

GERMAN BEES PROSPER IN FAVORABLE WEATHER

Berlin.—The bee industry of Germany, which sent approximately 700,000 bees to France as part of reparations in kind under the peace treaty, is virtually normal again, according to reports of agriculturists. This has been accomplished chiefly by favorable weather conditions, and the development of queen rearing apiaries which are being operated on a larger scale than ever before.

THIEF BOXED AS FREIGHT COMPLAINS OF ROUGHNESS

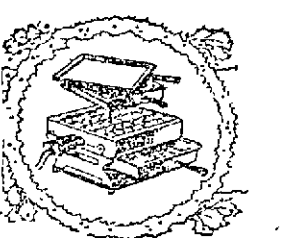

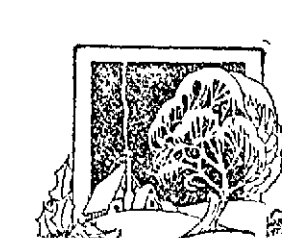

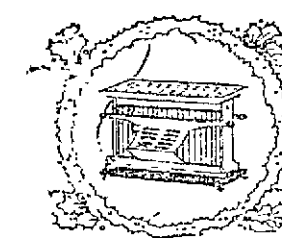

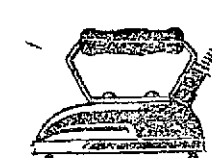

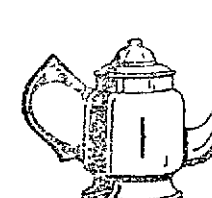

Berlin.—Peter Ahrens, a piano tuner, recently was arrested for stealing goods from a freight car. When ar-

raigned he made a complaint against the freight handlers' method of handling goods in transit. Ahrens, in order to get into the freight car, constructed a freight box, cushioned inside, in which he secreted himself. The box bore this caution: "Glass-ware. Handle carefully. Do not throw or turn over." Despite this Ahrens declared, the freight handlers put his box on end and left him standing on his head more than an hour before moving the box to the freight car.

Man Loses Hope

"For ten years I suffered severely from stomach trouble. The doctors said I had cancer of the stomach and nothing would do but an operation. I took my last round of Mayr's Wonderful Remedy 2 1/2 years ago. Since then I sleep well, eat what I want and feel fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including ailments including appendicitis. One dose will convince or money refunded. At all druggists. adv.

"Ah, There's The Rub"

WAS what Aladdin must have said when, left in the cave, he rubbed a dirty old lamp and conjured up a gift-giving genii. By getting one finger (or maybe two or three) dusty against a battered lamp Alladin was able to attain lasting wealth and happiness.

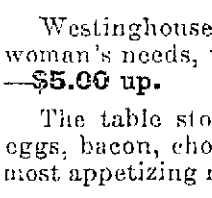

Which is a very good record—eve for a fairy story.

Modern science has made another genii the slave of a lamp. The Genii's name is Electricity, and it is slave not only of the lamp but of every kind of electrical appliance designed to save man needless labor.

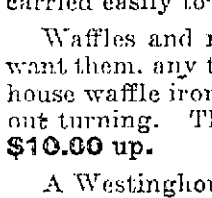

Today We Don't Rub The Lamp-- We Push The Button

Do you realize what lasting and valuable Christmas gifts electrical appliances make?

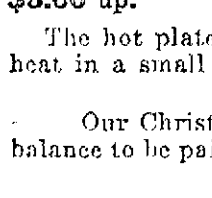

Here are a few suggestions that will relieve you of a number of Christmas worries:

Westinghouse Iron designed by women for a woman's needs, weighing six and one-half pounds—**\$5.00 up.**

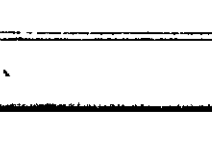

The table stove enables you to prepare toast, eggs, bacon, chops, and steaks at the table in the most appetizing manner—**\$10.00 up.**

Cozy Glow gives heat on chilly days. It can be carried easily to any part of the house—**\$5.50 up.**

Waffles and maple syrup, waffles anyway you want them, any time you want them. The Westinghouse waffle iron makes crisp, brown waffles without turning. There is no smoke and no grease—**\$10.00 up.**

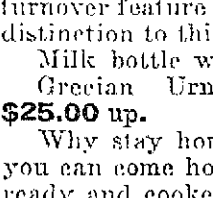

A Westinghouse warming pad gives off an even comfortable heat that is restful and soothes pain—**\$5.00 up.**

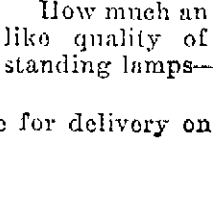

The hot plate for cooking gives off an intense heat in a small amount of space—**\$2.50 up.**

The fragrance of coffee made right at the table in a Westinghouse Percolator adds an appetizing zest to the meal. Priced—**\$10.00 up.**

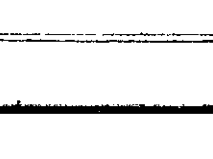

For bobbed hair or the more dignified coiff, the Westinghouse curling iron will leave your hair in soft natural waves. Priced—**\$2.50 up.**

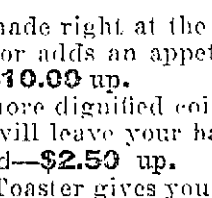

Westinghouse Turnover Toaster gives you toast—crisp and buttery—a breakfast in itself. The turnover feature is a special convenience that adds distinction to this gift—**\$5.00 to \$8.50.**

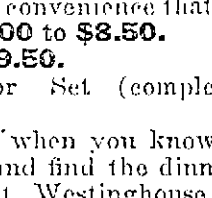

Milk bottle warmers—**\$9.50.**

Greek Urn Percolator Set (complete)—**\$25.00 up.**

Why stay home to cook when you know that you can come home at six and find the dinner all ready and cooked just right. Westinghouse Automatic Ranges—**\$67.00 up.**

How much an attractive lamp adds to the homelike quality of a house! Boudoir, table, and standing lamps—**\$4.00 up.**

Our Christmas Purchasing Plan holds any article for delivery on receipt of a small payment—the balance to be paid in weekly or monthly installments.

The Wisconsin Traction, Light Heat & Power Company

LAWMAKERS AGAIN WILL THRESH OUT EMPLOYMENT BILL

Lieutenant Governor Intends to Push Unemployment Insurance Measure

By Associated Press
Madison—The unemployment insurance bill will be introduced and pushed at the next session of the legislature under the guidance of Henry A. Huber, lieutenant-governor elect. It is understood here.

Employers subject to the bill would be liable for compensation to their employees while unemployed, subject to the following conditions:

The unemployment must be involuntary and no compensation would be payable to persons who refused to accept "other suitable employments."

The employees must have worked at least six months during the preceding two years within the state for employers subject to the act.

A maximum compensation would be payable only for three months during any calendar year and only in the ratio of one week of compensation for every four weeks of service in the preceding two years for employees under the act.

During the first three years that the act is in effect, the periods for which compensation would be payable might be cut down by the compensation insurance board if the insurance rates which have been charged employers prove inadequate.

No compensation would be payable until three days after the claim for compensation would be payable might be cut down by the compensation insurance board if the insurance rates which have been charged employers prove inadequate.

No compensation would be payable until three days after the claim for compensation would be payable might be cut down by the compensation insurance board if the insurance rates which have been charged employers prove inadequate.

SEEK FUNDS TO SEND RIPARIANS TO CAPITOL

Oshkosh—An effort will be made to present oral petitions to the congressional committee on damage claims to obtain awards for flood loss suffered by riparian owners in the Fox and Wolf river valleys. If sufficient petitions can be obtained to defray the expenses of a delegation of representatives of the association for the Relief of High Water.

The purpose of the proposed trip is to sound out the attitude of the committee on damage claims toward recommendation of a bill to permit owners to sue the government. Mayor R. D. Henshaw of Oshkosh has been authorized to become a member of the party with expenses paid by the city. The trip is scheduled for January.

GAME TOURNAMENTS FOR "Y" BOYS ON VACATION

Preparations are being made by H. V. Dismore, boys' work secretary, for a series of game tournaments for members of the boys' division of the Y. M. C. A. to be held during Christmas vacation. Competition will take place in ping pong, cue pool, billiards, little billiards, pool, checkers, caroms and football. From 15 to 30 boys have signified their intentions to take part in each contest and many more expect to sign up. The tournaments will be known as champions of the division in their particular game until they are defeated in regular supervised competition.

The same time, been bitten by the "social bee"—which interests his wife not at all. In fact, she prefers to stay at home and do her own work, although her husband wishes nothing better than to provide her with luxuries and many servants.

This is a situation in which, in real life, things begin to happen. And happen they do too in "Discontented Husbands," one on top of the other. The culmination is reached when the husband's eyes are opened by his own daughter, who takes to heart the freedom of thought and action her own father has taught her.

APPLETON THEATER

The Appleton Theater is offering a highly interesting program for Friday and Saturday of this week. Headed the program is the Echo-O-Link Kiddies a "Juvenile Revue" of eight talented children in a series of entertaining songs and dances. They are recruited from the best of families and carry a governor and teachers who keep them in training, as much as though they were in school. Jim and Bee McIntyre have a delightfully refreshing comedy offering "Vacation on the Farm" which enables the clever team to display their accomplishments. While Al Barnes and Company have a clever novelty comedy offering "The Drama" in addition to the unique photo theme "How to Educate a Wife" by Elmer Glynne and "The Three Weeks and Six Days." This story does not solve any of the perplexing problems that continually arise in every married home. It provides a merry mirthful evening's entertainment interspersed with sound philosophy. The cast is made up of Marie Provost, Monte Blue, Claude Gillingwater, Vera Lewis, Betty Francisco, Creighton Hale, Edward Earle, and Nellie Bly Baker.

FREE TO ASTHMA SUFFERERS

Free Trial of a Method That Anyone Can Use Without Discomfort or Loss of Time

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as occasional or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it today—you will not even pay postage.

AUTOMOBILE NEWS

SEES PROSPERITY FOR INDUSTRIOUS MOTOR CAR DEALER

Chief of Olds Motor Works Divides Business into Two Periods

Prosperity is in store for the automobile dealers who are willing to work and who adopt established business principles, A. B. C. Hardy, President and General Manager of Olds Motor Works, Lansing, Mich., told 275 motor car dealers at the December meeting of the Michigan Automotive Trade Association held in Kalamazoo.

Good advice and an optimistic outlook were contained in his address on "The Dealer of the Future."

Mr. Hardy divided the motor car business into two periods, the first period running from its beginning along in the early part of the century, when demand exceeded production.

During this second period, which began in 1924, the motor car business was characterized by a steady increase in production, and a corresponding increase in demand.

Mr. Hardy brought out the fact that at the present time out of seventy-four manufacturers, twenty-one names accounted for 96 out of every 100 cars sold, leaving 4 cars for the remaining 53 companies. He pointed out that the dealer selling a make of car included in the 21 that accounted for 96 out of every 100 is in the best position to secure both temporary and time sales financing.

"With this picture of the past and present in mind," Mr. Hardy said, "the dealer of the future must be a merchant with sufficient capital to handle his business. To put it in another way, he must be able to handle the business that his capital and credit will allow. He must have a simple and effective accounting system so as to know where he is at every minute, with a good collection system as part of it. He must know and apply good business methods. He absolutely must know which department of his business are making gains and which are showing losses."

"He must have the confidence of his fellow citizens. He must have the confidence of his bankers. He must have a reputation for honesty and square dealing. He must have the respect of his employees. He must have the ability to organize and to direct and to instruct those employees and to keep right on instructing them. He must have some vision as to this industry and the part he will have a part in the future. He must have initiative, not sit behind the stove because there is a light fall of snow. That won't do. He must have responsibility so that if one method fails he can immediately begin the application of another. He must be an enthusiastic worker himself and have confidence for both will permeate a whole organization as it comes from the top of the pile. He must have patience and courtesy beyond the limit, even over the telephone; and he must get it down into his organization for the real contact of the buyer and owner is with the one member or say the last member of the dealer organization he meets."

MANY AUTOS GIVEN AS HOLIDAY GIFTS

Christmas this year will bring automobile ownership to thousands of persons who never before even thought they would ever enjoy such a thing.

Of course, the giving of an automobile as a Christmas gift has been a practice for years. Families have bought new automobiles to replace old ones, the thoughtful husband has surprised his wife with a new car and indulgent yet practical fathers, to retain larger cars for family use, have played the role of Santa Claus and presented sons and daughters with Ford runabouts or coupe as personal cars, a practice which by the way, is becoming quite popular.

But for those to whom the ownership of an automobile has heretofore seemed impossible, the Ford Weekly Purchase Plan is now playing the role of Santa Claus. Thousands of persons who enrolled under the plan early in the year and made their weekly payments will this Christmas take delivery of their cars and receive a Christmas gift that gives year-round pleasure.

Approximately 150,000 persons already have secured their cars under the Ford Weekly Purchase Plan and this number will be materially increased before the close of the approaching Christmas season.

REO "SHOP BANK" PLAN IS GAINING

Annual Savings of Depositors Show Big Increase in Second Year

"In the second year of its operation the 'shop bank plan' established for Reo employees has shown a sufficient gain in strength to remove all question of its permanent success," says Mr. Schneider of The Appleton Auto Co., representatives of the Reo Motor Car Co., here.

"Total deposits for 1924, were within a few dollars of \$150,000, as compared to \$125,000 for the preceding year. The average number of accounts carried was 1011, and the average pay-period deposit for each employee was \$5.35."

In addition to the money placed in regular savings accounts \$19,000.75 was deposited in "vacation savings" by employees of the company. This brings the total savings of employees deposited under the shop bank plan to \$169,000.75.

The shop bank plan was put in operation as a substitute for the purchase of Liberty Bonds and other thrift propositions in which Reo employees had enthusiastically joined during the World War. At that time nearly three-quarters of a million in bonds were subscribed by the shop-bank plan, which topped their quota in practically every one of the five Liberty Bond drives.

"The thrift habit formed at that time has remained with the Reo employees. If the success of the shop is any criterion, Reo officials believe, they also find that as the amount of a typical depositor's savings grow, he also becomes more thrifty and generous to increase his bi-weekly deposit."

The shop bank plan is carried on through the time-keeping department of the Reo company. Each employee is given an opportunity to decide how much he wants deducted from his earnings and deposited for him each day. An annual interest rate of 4 per cent is applied to the savings.

Workers find that in spite of the fact that they are regularly being away from money large enough to give them substantial bank balances, they are able to live just as comfortably as they had before the thrift plan was introduced to them. The number of depositors is steadily increasing, and it is worthy of note that a Reo worker seldom loses his bank account.

CHEVROLET SEEKS TO REDUCE COSTS

Within the last two years the Chevrolet Motor Company has taken over the manufacturing of hundreds of both small and large parts that were formerly purchased from other organizations.

It is part of the general plan of this company to reduce costs of production to a minimum. The introduction of assembly plants and the building of such plants with body building plants of the Fisher Corporation constituted one of the steps in this direction.

In the fall of 1923, Chevrolet began making their own drop leafs, such as front axles, steering knuckles, connecting rods, spring hangers, motor supports as well as various other parts.

In addition the company has reduced the amount of malleable parts that go into the Chevrolet from 140 pounds to 60 pounds, replacing these parts with drop forgings and stampings, which are sturdier and more reliable. All these drop forgings and stampings are made in the Chevrolet factories.

During the last year, this company has likewise taken over the making of all fenders and sheet metal parts, such as side aprons, radiator splash guards and hoods.

This policy of the Chevrolet Motor Company has made it possible for them to put additional quality into the car.

HUNDREDS SEEK MAXWELL AGENCY

The unusually successful reception given the new Maxwell cars the country over has resulted in hundreds of applications for dealerships being filed with the Maxwell Motor Sales Corporation in the last few weeks, according to J. E. Fields, vice-president in charge of sales.

The company's records show that never before in the history of the organization has the selling franchise been so largely sought after, not only in this country but in Europe and Australia.

"This recent swing to Maxwell, led by some of the most prominent dealers in the country, is undoubtedly the outcome of the fine performance capabilities of the new Maxwell," Mr. Fields pointed out.

Reports have been received by the company from scores of dealers that actual performance records of demonstrators surpass the slogan of "25 miles per gallon, 28 miles per hour and acceleration from 5 to 25 miles

CLEAR WINDSHIELD NEEDED FOR SAFE DRIVING IN RAIN

Duty of Every Motorist to Keep Clear Vision to Prevent Mishaps

"Ask any motorist if he would dare to drive his car blindfolded. You know what his answer would be," states Mr. Al Schneider of Willard Station. "Yet thousands of motorists are driving in wet weather back of a rain-blurred windshield, which blinds them to dangers ahead. They continue this foolish chance-taking until the worstest occurs, as it inevitably will."

The duty of every motorist to keep his car part towards safe-guarding his eyes and in doing so with the aid of the mechanical safe guards now on the market, added comfort and enjoyment is secured.

"I am at a loss to understand," continues Mr. Schneider "how any motorist, with a definite regard for his own safety, as well as the safety of others dares to drive in wet weather without a clear windshield vision, particularly when the cost of a windshield wiper is so little."

The selection of a windshield wiper is, however, a very important matter. It must operate continuously at a steady even speed, and not falter or stop, which is about as bad as no windshield wiper at all.

There are a number of windshield cleaning devices on the market, but from your close observation and study of this very important mechanical unit, it unhesitatingly pronounces the Stromberg Windshield Wiper to be a decided improvement over all other types. It is electrically operated from the storage battery by means of a small motor of high-speed-series type. It is built by the Stromberg Motor Devices Company of Chicago, Illinois, manufacturers of the world famous Stromberg Carburetor and is fully guaranteed. Under most severe tests it has proved to be positively continuous in operation regardless of motor speed, road or weather conditions. The Wiper Rubber maintains a close adherence to the windshield glass due to an exclusive "Spring Tension" feature of the Wiper Arm. This side-feeding and a tendency of the Wiper Rubber to spring away from the glass is eliminated. The current consumption is extremely low, being less than that required to operate a single headlight.

It is controlled by a positive switch within easy reach of the driver's seat, and can be turned on or off at will. If desired, the Wiper will operate while the car is "parked" which assures a clear windshield vision when driving is resumed. Due to its compactness, the Wiper fits very close to the windshield frame. It is attractively finished in black enamel with all exposed parts rust-proof. Complete installation instructions make it easy for car owners to install the Stromberg in a very few minutes. It is designed to operate on both 6 and 12 volts.

CLOSED CARS ARE FAVORITE GIFTS

Salesmen Unanimous in Reporting Strong Advance in Demand

With the holiday season here, motorists are looking busily at automobiles for family Christmas gifts, and if the number of inquiries is a reliable index a whole lot of family groups are going to be pleasantly surprised Christmas morning. The search is almost wholly for enclosed cars, according to J. T. McCann, Hudson Essex dealer.

"The realization that this is the age of the enclosed car grows faster and faster," said Mr. McCann. "All our salesmen and associates report the same thing—the public has made up its mind to have enclosed cars. Naturally when they think of enclosed cars they think of Hudson Essex."

"The holiday buying of automobiles, like all holiday buying this year is exceptionally active. There is a feeling of business confidence and cheerfulness—a feeling that a period of good times is here. So like the great department stores, automobile row is doing capacity business."

"We have just dug up some interesting story on the history of coaches. The great story of their development has been the enormous reduction in manufacturing costs which they have made possible. We found for instance that the present Hudson coach sells for \$150 less than the first Essex coach and \$50 less than the first Hudson coach. The present Essex coach sells for \$600 less than the first Essex coach. Yet it is a far

in eight seconds adopted by the factory for the new model.

"Record sales of Maxwell cars are being reported in all parts of the country," Mr. Fields said. "Hundred of our dealers' sales for November were two and three times of a year ago. In Detroit, quite generally recognized as a barometer of the automobile market, our dealers took orders for more than 125 Maxwells in two weeks. That is an unheard of record for November."

DESIGN CHASSIS FOR DUMP BODIES

Graham Brothers have brought out a new, 124-in. wheelbase chassis designed especially for use with dump bodies. The new model, with 34 x 5 in. front and 36 x 6 in. rear pneumatic tires on wood wheels, is priced at \$1,400. A special road builder's model, equipped with 30 x 5 in. front and 34 x 7 in. rear pneumatic tires on steel spoke wheels, is also offered at \$1,470. The load capacity of the new unit is 1½ tons. The power-plant, front springs, steering gear and front axle are the same as the standard 115-ton Graham truck.

The frame side rails extend only to the rear axle as any overhang would interfere with the operation of a gravity type dump body. The rear spring suspension consists of two quarter-elliptic cantilever springs on each side. At their forward ends, they are clamped to heavy brackets riveted to the side rails. The rear ends of the upper and lower springs on each side are provided with eyes and are secured by bolts to the tops and bottoms of the spring seats respectively.

The rear axle is similar to the unit used on other Graham Brothers models except that it has two roller bearings supporting the axle shafts at their outer ends. The rear axle reduction is 6.25 to 1.

On the lower priced model, equipment includes electric starting and lighting system, battery ignition from fenders splash guards, running boards and lumps. The road builder's model is furnished with magnetite ignition and does not have starting and lighting.

The latest prices and values are the result of experience as well as specialization. For Hudson Essex has built 180,000 coaches in three years.

TUBE REPAIR KIT IS DRIVER'S NEED

When high quality tires (on the best road in the world) meet up with a shingle nail—

The chance of a puncture is there! External conditions are infinite and can never be controlled wholly. Iron and glass may cut rubber; a momentary lapse of attention results in abnormal shocks. No matter how excellent a tire or tube, a great deal of tire trouble may descend all at once.

And it's only the frailty of human nature for a vexed motorist to blame his oft-times abused tires or tubes even though the fault may be his own.

Consequently it is essential that every motorist be equipped with a tube repair kit, say Miller tire men. Nearly all motorists drive out of town once in a while, and when they do, they are anywhere from one to ten miles from the nearest service station where a tire can be repaired. Surely nothing can be more exasperating than to sit alongside the road with a puncture and nothing at hand with which to repair the tube. Even though the tube repair kit is not relied upon for use in a year, the superior car in both fundamental value and appearance.

The story behind these facts is that the coach has become 90 per cent of Hudson Essex business. Specialization is thus carried to a higher degree than in any other concern in the industry. At very frequent intervals Hudson Essex has passed these various economies on the owners, and at each stage has been rewarded by a wonderful increase in business.

The latest prices and values are the result of experience as well as specialization. For Hudson Essex has built 180,000 coaches in three years.

PRESENT ECONOMY MARK CUTS COSTS

In automobile industry, an enormous amount of money could be saved each year if all cars were up to present standards of operating economy, recently created by the tremendous advances in automotive engineering.

The Rollin car, for instance, a highly advanced automobile, has the remarkable economy of burning 25 to 30 miles per gallon of gasoline. Introduced at the first of 1924, thousands of Rollins in all sections of the country have proven this to be a usual performance.

This saving is effected because of the very high percentage of generated power that is conveyed towards the actual propulsion of the vehicle. I believe there is no other motor car engine that equals the Rollin in this respect.

An incandescent lamp and manifold development as well as a specially developed combustion chamber which ensures the burning of all gas, give a new efficiency in the utilization of fuel. This last feature gives not only maximum power from a minimum of gas, but also eliminates formation of carbon.

This saving, that Rollin owners accomplish is directly in line with the President's program. He does not intend that the business of any government bureau or civil shall be curtailed. He is merely making sure that every department is working at its highest efficiency, which automatically makes savings.

mental satisfaction of known it is available as well as the insurance against anarchy and often costly delays more than make up for its very nominal cost.

A roadside repair, however, should be considered only as temporary in most instances. It will set the motorist back into the city and may serve satisfactorily for hundreds of miles, but the safest course to follow is to permit a vulcanizer to make a permanent repair of the puncture.

Fourteen Appleton High School Cagers Picked As Regulars

Orange Basketball Put in Double Time to Prepare for Opening Game on Jan. 2

Appleton high school basketball squad has been cut down to 14 men, who will represent the school in conference games this season, and Coach John Kevin is putting them through their paces at double time in preparation for their opening game at Sheboygan on Jan. 2. The Christmas holidays will put an end to drilling for several days, but Kevin plans to return early from his home in La Crosse in order to get in as many days as possible.

Prospects this year are none too brilliant. Courtney is the only real veteran back on the quietest this year with Hieble out because of scholastic failure. Frazer played in the district tournament here and made a good showing, but was in very few other games. Ashmann turned out with the second sound under Guy Barlow last year and is working for a place at center this season. He needs a lot of practice but promises to develop into a star after requiring more experience. Bowley will be with the first team this year. While he is small and light, his speed is a great asset and he is expected to make a good showing.

Kevin is drilling his candidates to follow up closely under the basket and the boys show considerable improvement in shooting since the workouts started. The fourteen men who have been chosen tentatively for the regular squad by no means are sure of their positions, and it looks as though some of Guy Barlow's second stringers might give them a hard run. The second team frequently outpaces the first in scrimmages despite a great handicap in weight and experience. Medical examinations were held for all caging candidates. All of them appear to be in excellent shape, and it is expected none of them will be barred after the physical tests.

WISCONSIN QUINT READY FOR BUTLER

Badgers Meet Invaders in Second Preliminary Game Friday Night

Madison—The University of Wisconsin basketball team will meet opposition in its second preliminary game of the season, when it clashes with the Butler college five here Friday night. Dr. Walter E. Menzies, Badger coach, has been working his squad every night this week in preparation for the tilt, the last before the Christmas recess.

Dwight Spooner, stellar forward who was injured early in the season, will be used at least part of the game. It was understood that Martel and Merkle, who are fighting for forward berths, will be used again. In the match with Butler, Wackman, guard on last year's championship five, will be used at forward, with Barwig and Diebold at guard. Vanczy, who has shown considerable improvement, will start at center. Butler, under the tutelage of Pat Page, comes here with three last year's team in the regular lineup. Griggs, rated high as a center, will be the mainstay of the visitors' offensive and defensive action.

WAUSAU GETS SET FOR ELKS STATE PIN MEET

Wausau—Wausau lodge of Elks is preparing for the state Elks tournament here, which will be held from March 12 to April 8. The local officers are: J. E. Parker, president; P. Van Voeten, secretary; and Myron A. Smith, Charter O. Olson and Robert Hunter, executive committee. Wausau lodge will have about fifty teams in tourney. At present there are 30 teams in senior and minor divisions of Elks league besides twelve ladies' bowling teams.

Baetz Named Manager Of Legion Sport

C. O. Baetz has been appointed athletic manager of the Onyx Johnston post of the American Legion here, and now is busy organizing one of the strongest amateur basketball teams in the state, as well as a bowling league and several other athletic organizations. According to present prospects there will be a number of former high school and Lawrence college stars on the caging squad, but as yet no definite lineup has been announced. After the team is organized a regular schedule will be arranged and the team is expected to be a great success financially as well as a sporting proposition.

Plays Both

CAPT. R. J. LUMAN

One of Yale's brightest gridiron stars was Luman, picked by most of the football experts as one of the two best ends in the east. Luman, however, doesn't confine his athletic activities to football; he plays basketball equally well. He is captain of the Yale court team and rated one of the best guards in the east.

Yale, after winning a championship in 1922, disappointed in basketball last season. Luman is certain the Blues will do a strong comeback. 543: Handicap 10, 10, 10, 30; Totals 771, 721, 731, 2254.

ASSEMBLERS Won 3 Lost 0

VALLEY HIGH SCHOOL WHEEL STARTS CAGING

Green Bay—The Fox River Valley high school conference basketball season will open Thursday when the first two games of the 1924-1925 slate will be played. Oshkosh, without a defeat in its preliminary games, will clash with the Manitowoc five at Manitowoc, and East Green Bay will play West Green Bay at the latter's gymnasium here.

Pennant Plays - In - Basketball

By COACH J. CRAIG RUBY

Illinois, Big Ten Champions In this play the ball is tipped diagonally forward to the left. The right forward takes the ball at that point and dribbles toward the left forward who has faked into the center and then retreated to the side line and receives the pass from the right forward.

In the meantime the center has gone out of the center ring quickly and has run for his basket as fast as possible. He should arrive there before the left forward is ready to shoot. The whole play is based on the idea that the offensive center will be able to get to his basket before the opposing center can stop him. At least three West Green Bay teams used this play in the district 1925, 1926, 1927; Manitowoc 214, 191, 138, during the 1924 season for scores.

Greb, Lacking Punch, Wins Title Without

Swinging Left Hand to Body and Pair of Tireless Legs Gave "Pittsburg Windmill" Crown

The original Jack Dempsey, Joe Choynski, Tommy Ryan, Kid McCoy and Stanley Ketchel were the five finest middleweights of all time. Harry Greb at least comes next. Greb is the present middleweight champion. He is no more like the great battlers of bygone days than a Corot landscape is reminiscent of a baroque show bill poster.

Greb is "different." Of all the freaks the game has ever known the Pittsburg windmill, aptly named, is the freakiest. Greb hasn't a single punch in his repertoire. He tells you that himself.

"I've got a good Swing though," he adds. "A left swing to the body that seems to hurt the boys." Greb's Oldimers used to marvel at Abe Attoll, featherweight champion. Abe would sit up all night drawing to full houses and then go out the next day and take on tough lightweight like Tommy Murphy over the 20-round route.

Greb is much like that. Some months ago Greb was matched to meet Tiger Flowers, Georgian southpaw, at Fremont, O. The Tiger is a dangerous colored gent, as he has just proved to Johnny Wilson. The Tiger was in there to win that fight. A lot of smart money was riding on him. A knockout would make him champion. Greb was tipped off. It worried the champion to such an extent that he did all his training riding around in the country in an automobile. Greb likes a good time. If fighting interferes with his pleasure he stops fighting.

LEGS CARRY GREB TO TOP Greb's legs make him great. They are durable, speedy and powerful. Greb has always wanted to meet Dempsey, and many experts believe it would be a real fight. Greb never had any trouble against big fellows. He beat Mike, Madden, Levinsky, Roper, Weinert, Norfolk, Gumboat Smith and Gene Tunney. Pirpo could not knock out Homer Smith. Greb did it with his left swing.

GREG OUT ON HIS FEET Greb has been out on his feet in the second round but was fooled by Greb's acting. Gibbons got home a terrific left hook and it shook Greb to the toes. Instead of going into a clinch or backing away Greb began to dance up and down and smile.

Gibbons stood still to enjoy the spectacle. It cost him the fight. Greb's head soon cleared and then he came on to give the St. Paul harp one of the worst whippings he ever got.

Greb has always wanted to meet Dempsey, and many experts believe it would be a real fight. Greb never had any trouble against big fellows. He beat Mike, Madden, Levinsky, Roper, Weinert, Norfolk, Gumboat Smith and Gene Tunney. Pirpo could not knock out Homer Smith. Greb did it with his left swing.

The Nut Cracker ALL-AMERICANS—NO. 4 (GOLF) SANDY MENICHECK, the pro who told old Moneybags he was hopeless as a pupil and refused to take any more of his dough. FELIX HORSESHOES, a 30-handicap man who made a hole in one and neglected to call up and tell the sporting editor about it.

Harold J. Hangnall, who, although beaten 9 and 5 in the club finals, did not flake the clicking of a newspaper camera for his defeat.

Freddie Swartzburg, a caddy who was not looking when his boss hooked into the woods and admitted it. Freddie deserves further consideration for tossing another ball to the gentleman and saying, "See if you can keep this one on the course, you big bun."

Major Perch, who in accepting the chairmanship of the greens committee for another year said he was doing so because no one ever criticized his work and all the members worked hand in hand with him. (We might as well break down right here and confess the major is a mythical character).

Dolly Dimples, formerly of the Follies, who refused to wear knickers on the course in front of all those staring men because—well, it is necessary for a lady to explain THAT!

Mr. Orfil Queer, who absolutely refused to discuss the round at Pinehurst, during which he broke 80 for the first time in 17 years. (This may be partly explained by the fact that Mr. Queer went goofy the moment he realized the wonder of his accomplishment and has not been seen since).

Big Leaguer

JOE BOLEY

Now that the International league has decided to go along with the majors on the draft, Jack Dunn of Baltimore, who has always fought the alliance, announces that several of his star players are on the market.

Shortstop Joe Boley is perhaps the most sought-after Oriole. Boley has been ready for fast company for several years but Dunn, in a desire to retain his services, always made the price too high, much to the disgust of Boley, who has wanted a chance under the big tent.

Boley has always wanted to meet Dempsey, and many experts believe it would be a real fight. Greb never had any trouble against big fellows. He beat Mike, Madden, Levinsky, Roper, Weinert, Norfolk, Gumboat Smith and Gene Tunney. Pirpo could not knock out Homer Smith. Greb did it with his left swing.

SPORT VIEWS AND NEWS

Lawrence played well enough in its opening basketball game to defeat a strong Milton squad, 28 to 19, here Wednesday night, but the Blue cagers failed to come anywhere near last year's brilliant form. Most of them fumbled frequently and often their attack failed to penetrate Milton's defense, while a large number of close shots went wide of the hoop. Plenty of drill and a few real games should remedy these defects, and it looks as though the season would be a good one for Lawrence.

Emerging from Saturday's conference at Milwaukee, the Little Five conference retained all its members but seems to be badly bent. Beloit refuses to engage in athletic contests of any kind with Carroll college of Waukesha, although the latter has promised to abide by the freshman ruling which had been mentioned as the chief difficulty between the two institutions before the conference. This puts Beloit out of the running for the title, for a conference agreement is to the effect that each school must play all the others in the organization to be eligible for the championship.

Appleton is assured a strong hockey this year, although it still is uncertain whether a valley league will be organized. Walter Bell, captain and manager last year who put the winter sport on its feet here has been lost to the team, but Prasher, the Sharp brothers, Al Gosha and Bruno Bell are back and ready to go. They have been out for practice several times and look good.

East meets West in Green Bay Friday night when the two neighboring high schools clash on the West Green Bay basketball court in one of the opening games of the Valley

High school conference. Oshkosh invades Manitowoc in the other contest. Appleton is idle on the opening night but gets its start at Sheboygan immediately after the Christmas holidays on Jan. 2.

Appleton boxers now have a gymnasium in which to do their training in the clubhouse recently opened in the flats by Elmer Johnston, owner of the Midwest club franchise. Most of the Appleton sluggers and some from Neenah-Menasha and Kaukauna are taking advantage of the gymnasium to get some much needed training.

Atlanta—Jackie Clark, Allentown, Pa., lightweight, won a referee's decision over Billy McGowan, Atlanta, at the end of a ten-round bout.

New York—Students presented Walter Koppisch of Buffalo, three times captain of the Columbia football team with a \$600 diamond studded watch.

Sisler's First Experience As Trader Costly

George Sisler's first experience as a trader of ball players has made him very cautious in his attempts to dispose of Pitcher Shacker.

Last season Sisler gave four players, Pitchers Ross and Wright, Casher Billings and Outfielder Durst, to Los Angeles to rattle the battery of Lyons and Rego.

Pitcher Lyons failed to show his league form, and Rego, while a good receiver, cannot hit major league pitching.

Rego comes back to the Chicago Cubs at a fancy price. The deal was a flop from a St. Louis standpoint. It made Sisler more careful. No more Santa Claus stuff for him.

New York—Johnny Leonard, Allentown, Pa., junior lightweight, outpointed Vincent Marting of Brooklyn in 12 rounds.

Illustration of two cigars, Perfectos and De Luxe, with text: Perfectos 2 for 25c, De Luxe 15c.

Here's a gift, mien—a real one TWENTY-FIVE beautifully made Harvesters just waiting for a match. In gay little boxes for giving or receiving—just the sort of gift for making Merry Christmas merrier. There are three sizes of Harvester smoking pleasure. For the season of seasons there's nothing finer than giving or receiving a box of Perfectos, 2 for 25c, or De Luxe, 15c. It's a gift, mien—a real one. The Harvester Cigar is made by Consolidated Cigar Corporation, New York Distributed by Lewis-Leidersdorf Co. Milwaukee, Wis. The HARVESTER CIGAR

WISCONSIN'S GRID PROGRAM FOR 1925 IS BEST IN YEARS

Badgers Meet Iowa in Homecoming Contest Week After Minnesota Game

Madison—That the 1925 football schedule for the University of Wisconsin is one of the best ever arranged for the Badgers everything taken into consideration, is the belief of Coach Jack Ryan and the members of the athletic council.

The schedule follows:

Oct. 3—Ames at Madison.
Oct. 10—North Dakota at Madison.
Oct. 17—Michigan at Madison.
Oct. 24—Purdue at Madison.
Oct. 31—Minnesota at Minneapolis.
Nov. 7—Iowa at Iowa City.
Nov. 14—Michigan Aggies at Madison.
Nov. 23—Chicago at Chicago.

The Ames game this year although resulting 17 to 0 in favor of Wisconsin was the most spectacular game played at Camp Randall and undoubtedly will prove a big drawing card next year. Ames is one of the strongest schools in the Missouri Valley conference and played Minnesota a tie game one week before the Gophers defeated Illinois, 20 to 7.

South Dakota is another midwestern institution which has been coming to the front rapidly in football, and will give the Badgers the kind of hard practice which is needed at that time just a week before the big Michigan game.

Of course, the big attraction at Madison will be the Michigan contest coming as it does Oct. 17 when all highways will be in perfect condition and a record crowd may be expected.

Wisconsin will play its first game away from home when it meets Minnesota in the new stadium at Minneapolis, Oct. 31, and a battle royal may be expected.

A week later the Badgers go to Iowa City for the Homecoming game with the University of Iowa and this also should prove an extremely hard game.

With five conference games all against exceptionally strong teams, and three of the hardest non-conference games scheduled by any school in the conference, Wisconsin is facing a schedule second to none in the middle west.

THUMB HEALED, DELANEY WOULD MEET BERLENBACH

New York—Jack Delaney, who has been on the shelf for several weeks with a broken thumb, is ready to go again. Pete Riley, Delaney's manager, is anxious for a return match with Paul Berlenbach. Paul is to box Larry Estridge, negro middleweight, at the garden Dec. 26 and negotiations for another Delaney-Berlenbach bout must await the result of that fracas.

VIENNA CHILDREN GREET OLD HOSTS

Vienna—A strange but interesting lot of exiles came to Vienna recently. The party was made up of childless couples from Holland who had taken poor Austrian children into their homes when their country was at its worst after the war. They had come to visit the government here, and to see how they were getting along in their native surroundings.

The Hollanders made the journey by special train and were met at the station by their former wards, whose parents and friends had organized a reception committee. There was much confusion at first in the greetings and it was only after some hours that all the Hollanders were able to identify their foster children. In several instances some of the children who had gone to the station went away greatly disappointed because they had been unable to find the man and woman whose guests they had once been in Holland. And three of the childless couples ascertained that they had made the trip in vain, owing to the fact that death had taken away the little ones they had learned to love.

CACTUS PLANTED AS NOVELTY IS NUISANCE

Tucson, Ariz.—Forty years ago species of southwestern cacti were introduced in Australia as a novelty, but now they have become such a nuisance that every effort is being made to get rid of them, reported C. F. Dodd, an Australian agriculturist, who has been here looking for cactus-eating insects which might be transferred to Australia.

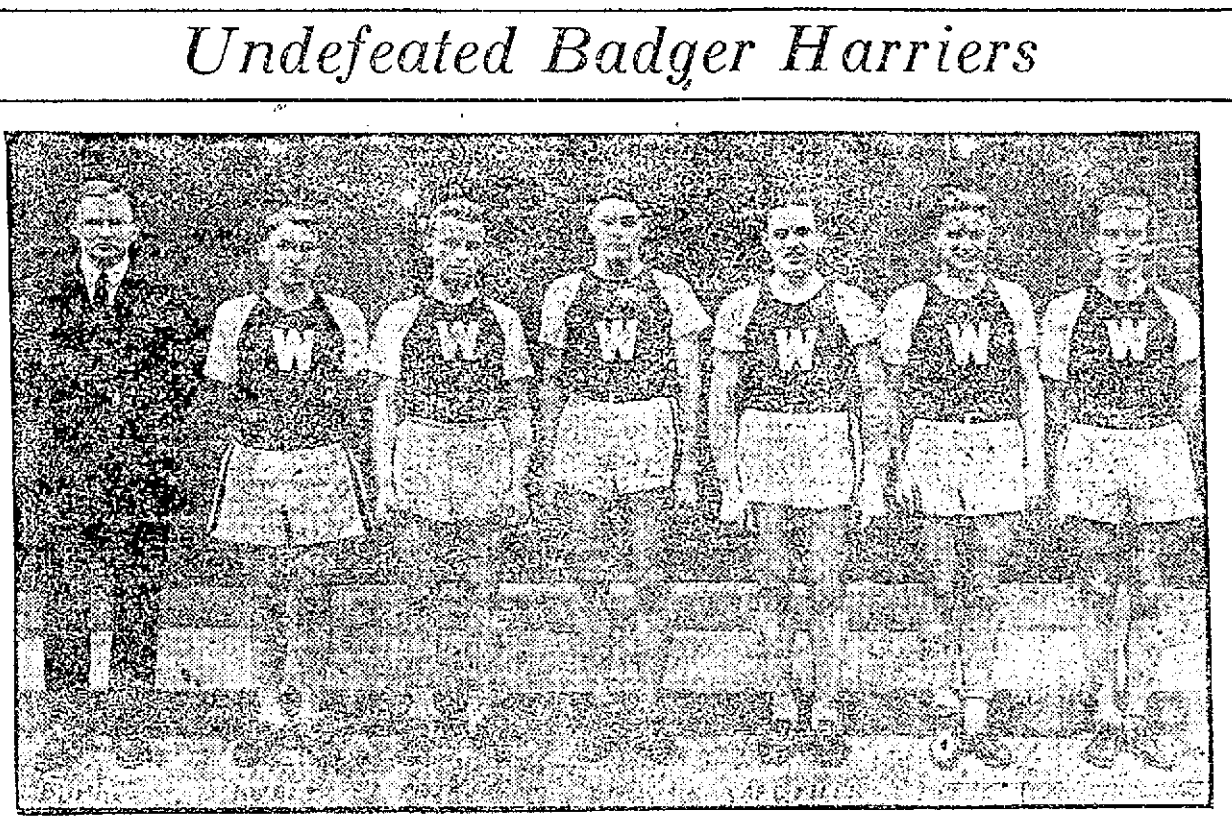

Mr. Dodd conferred with experts at the University of Arizona. Several vicious types of insects were suggested, and the visitor began experimenting with their power of destruction. The few cactus plants transplanted in Australia came from Arizona.

WANT U. S. TO BUILD GOLD ORE PLANT IN ALASKA

Anchorage, Alaska.—After an unofficial survey of the mineral resources along the government's Alaska Railroad, members of the United States Bureau of Mines have recommended to Washington that an ore-sampling plant and reduction works for treating free-sitting ores by plate amalgamation and concentration of base ores be established by the government at Anchorage.

According to engineers of the bureau, an official survey soon will be made.

It is reported that there are free-milling gold prospects in the rail-road belt sufficient to supply thousands of tons of ore weekly, and lessors are ready to enter the field as soon as they are able to dispose of their product.

LEFT TO RIGHT: COACH BURKE, KUBLY, PETAJA, LINK, PIPER, (CAPT.), PERRY AND BERGSTRESSER.

University of Wisconsin cross country team went through the season just passed without a defeat and finally topped off its successes with a flashy win over 4 other teams in the annual Big Ten conference race at Ann Arbor.

Badger Harrier Title Result Of New Theory

Madison—The University of Wisconsin cross country team, which went through the season just past without a defeat and finally topped off its successes with a demonstrative win over fourteen other teams in the annual Big Ten Conference race at Ann Arbor is a product of some new coaching theories on the part of its tutor, Mead Burke.

Burke, a Badger runner of enviable ability in his own collegiate days, has been the Badger harrier coach for a number of years. His teams have constantly either finished second or third, always falling only a trifle short of the coveted championship. Last summer Burke was a scientific observer at the Olympic Games in Colombes stadium outside Paris. With plenty of time to ruminate on the return voyage, his new ideas developed, and from them developed Wisconsin's first championship harrier squad since 1915.

Coach Burke's men, though three of the six lacked casual experience, were able to attract attention about mid-season after victories over Marquette and Minnesota could no longer be disregarded. Following these accomplishments, the Cardinal sextette retired Chicago and Michigan by demonstrative scores, the Wolverines going down in defeat over their own hilly course. Kubly of Wisconsin, though only a sophomore in competition, established a record over the Michigan four mile course, and the Badger team victory might even have been more decisive had not Petaja the sophomore Finn, been struck down by a careless motorist while the runner was tagging two teammates for third place.

A number of other coaches noted Burke's men out in uniform taking a light workout the day before the race. They laughed. Burke had nothing to say; he kept his theory to himself: the less runners are deviated from the customary program before a race, the better performance they will put up.

The next day at the finish line spectators saw Phelps of Iowa cross the finish line first, Shimok of Marquette second. No Wisconsin men in sight. Four men finished, and still no sign of the Cardinal. Then three red jerseys loomed up, Bergstresser running easily for a seventh, Captain Piper eight, and Kubly ninth. Perry followed soon after for twelfth, while Petaja was sixteenth, despite his injury of a few weeks earlier that had put him in the infirmary for a time. This completed Wisconsin's scoring for a low total of 52. Iowa who took second mainly because of Phelps individual victory, had 98.

Though he loses Captain Piper, Perry, Bergstresser, and Link this year, Burke can do the smiling now, for he has Kubly and Petaja back for two years and a squad of freshmen who promise to maintain the record set by the varsity of this year.

ARMENIA PREPARES TO USE OWN FUNDS IN ORPHANS' CARE

Government Plans to Erect Three Great Industrial Schools

By Associated Press
Erivan, Armenia—Plans are being drawn by the Armenian government for the erection of three great industrial training schools in or near Erivan for poor Armenian boys and girls, the funds being supplied by wealthy Armenian Americans. The three institutions will cost upward of \$1,000,000. The first of these is an agricultural school which will be paid for out of a half-million dollar bequest left by the late Gulilab Gulbenkian, of New York.

The second school will be devoted to trade and technical subjects for dependent Armenian boys, the cost being defrayed by the estate of the late Rafael Margossian, of New York, who died in Paris, leaving 3,500,000 francs for the founding of such an institution.

The third school will be a vocational institution for Armenian orphan girls between 16 and 18 years old. These children will be instructed in domestic science, nursing and the useful arts, the plan being to make the girls self-supporting for life. This institution has been made possible through the generosity of Leon Agopian, a wealthy Armenian businessman living in New York, who set aside nearly \$250,000 for the purpose in memory of his sister, Darochi Agopian, who recently died in New York at the age of eighteen.

Leon Pashlian and Kevork Assadour, members of the Armenian national committee at Geneva, are arranging the details of the three institutions in collaboration with the Armenian government officials. It is expected the schools will absorb the greater number of destitute Armenian boys and girls now in Armenia and will also supply the future artisans, engineers, nurses and teachers of the country. A considerable number of the orphans now being cared for at Alexandropol by the American Near East Relief Organization will be transferred to the new schools.

GERMAN PRISONER BACK IN CELL AFTER WEDDING

Berlin—Fritz Linker, serving a sentence for theft, escaped recently and wrote a letter to the jailer saying he was then on his honeymoon and that he would return as soon as the wedding tour was ended. In three weeks Linker gave himself up.

When he wrote the letter, he said, he had no such intentions, but his wife heard of his promises and insisted, Linker informed the jailers, that he keep his word and go back to prison, and she would be awaiting him again when his time was up.

SANGOR AND AZZARRELLA BATTLE TO GOOD DRAW

Fond du Lac — Joey Sangor and Joe Azzarella, both of Milwaukee, fought a good draw here in their ten-round windup of Thursday night's cards. On the same program Battling Herb, flashy Oshkosh fighter, took a beating at the hands of Ray Ryndell of Milwaukee, and Washie Hendricks had a bit edge over Battling Beck whom he met for the second time after fighting him to a draw at Appleton.

he card was one of the best seen here this year and drew a large crowd.

NEIGHBOR SAVES HOME AND LIVES OF 2 CHILDREN

Mason-st Home Badly Damaged by Fire Caused by Over-heated Furnace

The timely action of a neighbor not only saved a home but also possibly three lives from destruction in the fire which occurred at the home of Carl Olson, 637 Mason-st, at about 10 o'clock Thursday evening.

While two small children slept in their beds on the second floor of the house a hot fire in the furnace caused the fire of the chimney to become overheated and set fire to the ceiling of the basement. A girl left in charge of the children while the parents were away was not aware of the blaze below.

The fire was discovered by R. L. Jarvis, a neighbor. As he was about to retire he saw smoke and a blaze in the basement of the house. He went over immediately to arouse the household. The girl went upstairs and brought down the sleeping children while the neighbor sent in an alarm to the fire department. Firemen said that the alarm had been just in time, for after a few more moments the smoke would have been so thick that it would have been almost impossible to ascend the stairs.

The damage to the house was not great, but the ceiling of the basement was considerably charred, and a partition was damaged. It will be necessary to rewire the house.

An hour and a half earlier the firemen answered a call to the home of Joseph Baudon, 1215 Gilmore-st, where a chimney fire was burning. No damage resulted, however.

SKIDDING TRUCK HITS MAN CROSSING STREET

Charles Schultz, 65, living at 1019 Appleton-st, was struck down by an automobile truck of the Valley Dairy Products company on College-ave at 6:30 Friday morning, but his injuries were not serious. He suffered several cuts on his face. The accident occurred as he was crossing the street and the truck skidded against him. He was taken to his home by the city ambulance.

School Giving Play
Hillside school, route 3, Appleton, will present a Christmas program at 8 o'clock Monday evening. A play by pupils will be one of the features.

Save Coffee!

Here's a saving hint for you. A bit of information which regular users of Thomas J. Webb Coffee know well and which you, too, should know and profit by. It's this:

You don't need as much of Webb's to make that pot of coffee as you've been in the habit of using with ordinary coffees. Make your coffee just as you've always made it. Use the same amount of boiling water you've always used. But you don't have to use as much coffee as you've been accustomed to use when you were buying ordinary brands. Because Webb Coffee is so much richer in flavor that a little of it goes a long way.

Of course you alone know just what flavor strength is most appealing to your particular taste. And naturally you'll be guided largely by that. But you'll be agreeably surprised to find you actually require smaller coffee measurements than you've ever known before to make your coffee "just right."

Thomas J. Webb

When Dinner Is Served on Christmas Day you want the Meat to be worthy of the other viands and a credit to your ability as a cook. One of the best ways to insure this is to order your Meat here where the highest quality is always to be found.

A PAGE OF INTEREST TO WOMEN

RECIPES

Fruit Cake
Is Desired
Annual Gift

All of us at one time or another have vague yearnings to "make something" for Christmas. We weary of the Christmas crowds, the stereotyped lists of presents, the what we are pleased to call "commercial aspects" of the day and expand our dissatisfaction in making "something," that usually turns out to be something which the person who receives it will never use.

Sometimes we receive gifts for which we do not even know the use. However, one Christmas, I received a box of Christmas cakes, each into odd shapes and attractively iced. No directions were needed. Everyone knew what to do with them and promptly did it, and so, those of you who want to put love and personal thought into your Christmas gifts, just mark your Christmas lists "Christmas cakes for everybody" (You might omit some of the men).

Fruit cakes are not so formidable to make and bake as many people believe, nor so expensive. They may be simple or elaborate, to suit any need and purse. Currants, raisins, citron, candied cherries, orange and candied fruits and nuts over the top.

Round fruit cakes, in a sherry wine, in town, had rings of cherries alternating with blanched almonds around the top. The centers were stuck surges of holy, tied with red ribbon, and wrapped in tinfoil paper, what more attractive gift could one receive?

Some may prefer light fruit cake, some, dark. Some want the old-fashioned kind with brandy or fruit juices. We have all these recipes for you.

Then there is steamed fruit cake. It is steamed for two hours and baked one hour to finish it.

We have a chocolate fruit cake recipe for those who like variety. A fruit cake recipe to fit every need and every purse might be cut and use, you will find methods varying little and results assured if you only "follow directions."

In the old days, even though cooks were few and measuring cups and spoons unknown, our mothers and grandmothers were fine cooks. Apparently they followed no rules but spent far more time in their kitchens than we do. With their cooking was a profession—with us, it is only a side line.

When we attempt their instinctive habit of a "little of this and a little of that," the result is not good. We are out of practice. Therefore, we find we must use recipes, must pay the attention to level measurements, oven temperatures and the like.

Of course some of you may want to frost or glaze your cake.

A glazed top may be made by sprinkling your cakes with granulated sugar before putting them into the oven. Ornament them with candied fruits and cherries, or put a thin slice of blanched almonds on your cakes and sprinkle them with sugar to form a glaze.

Whatever rules you choose, try cakes for Christmas and so solve your Christmas problems.

TON TO LESLIE PRESCOTT
CONTINUED

From the way Walter said this, Leslie, I knew he only half believed it, so I think we'll try to let the shop problem work itself out after Walter and I are married.

Yes, Ruth, for all I am afraid I am going to marry him. He is the best man, the honestest man, and the most sincere man I have ever known. I'm going to try it once more, Leslie, and then if I find it's all wrong, I'm going to go out on a crusade against marriage as we know it now.

Now about yourself, my dear. Lay your cards on the table. Come through straight and clean, and also make that little tangle of a sister do the same thing. If necessary bring your mother into it—although poor woman, I would not make her choose between her daughters unless you find you cannot settle it properly in any other way. Remember, dear, I'm with you from first to last, and if you want me to, I'll bring up Walter as a reserve, and he's a whole regiment in himself.

Before I say any more, dear, I shall be Mrs. Ruth Burke. Pray a little prayer for me tonight—not for my happiness, perhaps, but for my content, and chance to make good. Lovingly,
RUTH.

Cablegram From Alice Hamilton to Lady Betty Carnovan.

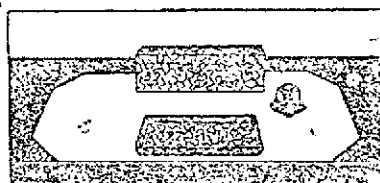

Would you and Charles like to winter in Cuba with me? My marriage has been delayed. I am not sure but it will be put off indefinitely. Father is recovering and as you know I hate the United States. Answer immediately. ALICE.

Night Letter From Mrs. Leslie Prescott to Mrs. Mary Alden Prescott.

Forgive me for not writing you before. Waited until I had good news. Had steady operation under full. Recognized mother today. Expect to stay here quite a while.

Christmas
Presents

DES. SET

If you are careful a home-made desk set is quite charming. A blotter, corners, small trap and letter box or whatever accessories you choose can be purchased at a small cost. Tiresome, braided or any material you like can be used for covering, with galleon heads of ribbon to finish the edges by being glued on.

Adventures
Of The Twins

SEVERAL RIDDLES

"Here's a riddle for everybody to guess," said the Riddle Lady. "It's very easy—as plain as the nose on your face."

Nancy and Nick and all of Mrs. John's visitors stopped talking and listened with all their might.

This was the riddle.

"I beat you to bed. I beat you to school, and I beat you getting home again. No matter where you go or what you do, you never catch up to me. I am right before you, yet you never see me. Who am I?"

"A shadow," guessed Nimble Jack.

"No," said the Riddle Lady.

"The wind," guessed Johnny Spritz.

"No," said the Riddle Lady.

"Ah, I know," cried Tom Tinker. "It's your nose."

"No, your nose," laughed the Riddle Lady. "My nose doesn't beat you to school and beat you home again. It's your nose."

"You should say one's nose," corrected the Wise Man. "If you wish to know anything about grammar, come to me."

Well, Tom Tinker guessed it anyway," said the Riddle Lady, "and he gets the prize—a bottle of perfume."

"Humph! I should think a pinch of snuff would be more like it," sniffed Dr. Foster.

"Well, there may be more riddles," asked Nancy, who got tired of so much talking.

"Yes," said the Riddle Lady. "What is this?"

"I have more keys than Bluebeard, yet I cannot unlock a door."

Everybody guessed and guessed, but not a soul got it, and finally they all gave up.

"A piano," said the Riddle Lady. "Now what's this one?"

"When I am good I am very, very good and when I am bad I am terrible. I am only useful when I am broken. The older I grow the stronger I get."

"Well, I guess I should know what that is," said Humpty Dumpty. "It's an egg, isn't it?"

"Yes," said the Riddle Lady. "You are right, Mister Dumpty. I hope I didn't hurt your feelings."

"Certainly not," said Humpty Dumpty. "I hope I'm not as frightened as all that."

"What's the next riddle?" asked Puss-in-Boots.

"I was coming to it," said the Riddle Lady. "What is it that grows

Do You Have
Right Spirit
For Holidays

BY DOROTHY DICKEN

When Lord said, "It is more blessed to give than to receive," it was before the holy day of celebration of his birth and becomes a general day of gift-giving. And he would have been the first to deny the sorrow which this custom brings to so many.

So many children are brought up to believe that Christmas gifts come from jolly old Santa Claus that they unconsciously assume an attitude of complete and supreme acceptance of the best the old saint can bring. Without any idea, perhaps, that father is going, without a new overcoat and mother without a new hat—of the hours of piecing and planning and of the countless trips downtown. But that's all Christmas after all. Father and mothers find joy in it. In a way, even, isn't it a selfish pleasure? After the children are grown-up, do you say "Remember how we did this—and did that"—and now look—they don't appreciate it!"

What does Christmas really mean? A time when you try to give your children, your family, your friends, something a little better than the family next door? Does it mean a time when you have to hide financial worries beneath an indifferent exterior, because you are not brave enough to say, "We can't afford that kind of a Christmas this year?"

Or does it mean a day of happiness, when your family is around you—when the gifts you give and the gifts you receive are within your means and you enjoy therefore both in the giving and the receiving?

Does it mean a day of dread of each ring of the door bell, for fear someone you did not remember, is remembering you?

What does Christmas really mean—to you?

And what should it really mean—to everybody?

There is real charm and elegance to this coat dress of novelty striped flannel silk in cocoa color banded with a few shades darker. It is unbelled, but the long straight line is broken by a side panel of the material used lengthwise. With it is worn a velvet hat the color of the fur—one of the new away-from-the-face models that are featured in millinery collections.

Light grade oleomargarine often is made chiefly of coconut oil.

Animal service has been introduced in China.

bigger, the more it loses. It comes in stockings, doughnuts and sieves.

"Stockings," cried Mrs. Dumpling. "Well, I ought to know with a son like mine. Holes, of course."

"That's right," said the Riddle Lady. "And here is your prize, Mrs. Dumpling, a darning basket."

There were more riddles after that, but I'll have to wait until tomorrow to tell you the rest.

Maytag Gyrafoam is available
with gasoline motor attachment.

GIVE her smiles at the
very thought of washing—and a song on
her lips when she does it.

Give her the gift of a genius—a gift
that's been snatched from the future.

Realize—if you can—what it will mean
to her to come downstairs on Monday—
lend a hand here, a hand there and soon
her whole week's washing's done. It's
play compared to what her getting-the-
wash-out-hours have been.

Can you appreciate what this means—
"a tubful of clothes hygienically snow-

white in from 3 to 7 minutes," "50 lbs of
dry clothes washed an hour," or this—
"no handrubbing necessary on wrist-
bands, neckbands, or collars?" You may
not fully appreciate such remarkable
laundrying performance, but she will and
quickly, too. There's only one washer in
the world whose principle provides such
startling efficiency—a washer which in 600
days has swept into world leadership—
and that's the Maytag Gyrafoam! You
couldn't give a finer gift—nor one so
emphatically practical.

LET A NOTICE

STATE OF WISCONSIN, County Court for Outagamie County.

In the matter of the estate of Gustav Lemke, deceased.

Notice is hereby given, that at a special term of the county court to be held in said county at the court house in the city of Appleton on said county on the 2nd Tuesday, being the 13th day of January A. D. 1925, at the opening of the court on that day, to wit at ten o'clock in the forenoon, the following matter will be heard and considered:

The application of Matilda Lemke as the administratrix of the estate of Gustav Lemke late of the city of Appleton in said county, deceased, for the examination and allowance of his final account (which account is now on file in said court), and for the allowance of debts, claims and other items, paid in good faith without having first been filed, approved or allowed by the court, as required by law, and for the assignment of the estate of the said deceased to such persons as are by law en-

LEGAL NOTICES

title thereto; and for the determination and adjudication of the inheritance tax, if any, payable in said estate.

Dated December 19, 1924.

By the Court
LORENE ZEHREN,
Register in Probate.

J. P. FRANK,
Attorney for Estate.
Dec. 19-26, Jan. 2.

STATE OF WISCONSIN, County Court for Outagamie County.

In the matter of the estate of John Hardy, deceased, in probate.

Pursuant to the order made in this matter by the county court for Outagamie County on the 11th day of December 1924.

Notice is hereby given that at a regular term of said court to be held at the court house in the city of Appleton in said county, on the 1st Tuesday, being the 6th day of January 1925 at the opening of the court on that day, or as soon thereafter as the same can be heard, will be heard and considered the petition of Thomas Hardy for proof and probate of the alleged will and testament of John Hardy late of the town of Ellington in said county, deceased, and for letters testamentary or letters of administration with said will annexed, to be issued to Thomas Hardy and James Hardy.

Notice is hereby given that all claims for allowance against said deceased must be presented to said court on or before the 30th day of April 1925, which is the time limited therefor, or be forever barred.

Notice is hereby also given that at a regular term of said court to be held at the court house aforesaid, on the first Tuesday, being the 6th day of May 1925, at the opening of the court on that day, or as soon thereafter as the same can be heard, examined and adjusted all claims against said deceased then presented to the court.

Provided, that all claims for necessary funeral expenses, expenses for the last sickness of said deceased and for debts having a preference under the laws of the United States, which shall have been presented to said court within sixty days from the date of said order, will be heard, examined and adjusted at a regular term of said court to be held at the court house aforesaid on the 1st Tuesday, being the 3rd day of March, 1925, at the opening of the court on that day or as soon thereafter as the same can be heard.

Dated December 11, 1924.

By order of the Court:
FRED V. HEINEMANN,
County Judge.

ROONEY & GROGAN,
Attorney for the Executor.
Dec. 12-19-26.

850 COLLEGE AVE.

This Christmas Give A ZENITH Zenith Washer

Tub

Heavy copper tub, polished and lacquered outside; heavily tinned inside. Top solid cast aluminum; cover, one piece of copper. Drains through large discharge valve. Nothing to lift out and clean but light aluminum cone and agitator. Not necessary to stoop to lift out clothes.

Wringer

All aluminum frame with full 12-inch rolls and drain board. Tension automatically adjusted without the use of thumb screws. Simple instinctive forward movement of the hand releases rolls and separates them wide. Wringer swings and locks in five positions. Wringer and post strong enough to bear heaviest loads without sagging. All gears fully enclosed. Oilless bearings, cannot spot wash.

Motor and Mountings

Powerful quarter-horsepower motor, fully guaranteed. Base and frame are very strong and rigid. Enamelled a soft gray.

\$135.00

Zenith Cabinet Washer

Tub

Stamped from one piece of copper with all rounded corners. No seams, bolts or screws are in the body of the tub. Polished and lacquered outside and heavily tinned inside. The top ring is of cast aluminum. One-piece heavy copper cover. Drains through automatic faucet; nothing to lift out and clean but light aluminum cone and agitator. So designed that it is not necessary to even bend your back while doing the entire washing.

Safety Wringer

Tension automatically adjusted without use of thumb screws. One simple movement of the hand releases the pressure and instantly stops both rolls. Swings and locks in five positions. Wringer and post strong enough to bear the heaviest loads without sagging. All moving parts except rolls completely covered. Oilless bearings, cannot spot the wash.

Strong quarter horse power motor, fully guaranteed.

Base and frame are very strong and rigid. Neat side panels protect motor from dampness and cover all moving parts. Easy rolling, 2 1/4 inch casters.
